RELIEF FROM COLD WAVE IS NOT IN SIGHT

Forecast is For Continued Cold on
Top of Two Days of Below
Zero Temperatures

MANY SUFFER INTENSELY

Three More Cars of Coal Arrive
Since Saturday, But Will
Scarcely Supply Needs Here

SEVEN CARS ON WAY HERE

Temperatures of 11 and 12 Below
Recorded Saturday and Sun-
day Nights—8 Above Today

Red Cross Closed on
Account of The Cold

Red Cross headquarters had to be closed today on account of the cold weather. Mrs. Harrie Jones, secretary, announced that headquarters would be opened again just as soon as the weather moderated, but that it was impossible to heat the Masonic temple today so that it would be comfortable for workers. Mrs. Jones said an extra effort would be made when headquarters is opened to make up for the loss of time because of lack of heat.

Intense suffering among poor people because of the zero temperature which prevailed Saturday night, Sunday and Sunday night was reported today. Many calls for relief were received by the township trustee, J. V. Young and S. L. Trabue, county fuel administrator, has been busy most of the time since Saturday afternoon answering the telephone because people in want of coal have looked to him for relief.

The car of coal reaching T. H. Reed and Son did not last over Sunday and there were prospects of three other cars arriving since Saturday evening being unloaded and sold by tonight. These three cars will scarcely relieve the shortage temporarily but six more cars shipped by the fuel administration should arrive by the time the present supply is exhausted. There is no certainty however, when they will be here. A seventh car is expected by T. H. Reed and Son, it having been purchased by Frank Capp in Virginia and consigned to them.

No moderation in temperature was promised by today's weather forecast. The weather bureau said fair and continued cold tonight and Tuesday. The mercury never rose over eight degrees above zero all day, which was only twenty degrees warmer than the lowest temperature last night.

That the county was contending today with the most severe cold weather since last February was revealed by the records of the weather observer for the county, Elwood Kirkwood, at Maury. This morning's temperature was the coldest, the mercury registering twelve below zero. Yesterday morning the temperature by the government thermometer was eleven below. This was a drop of thirty degrees in twenty-four hours, the temperature on Saturday morning having been nineteen above zero.

Mr. Kirkwood said that there was seven inches of snow on the ground this morning, five and a quarter inches having fallen from the time the snow storm began Saturday morning until Sunday evening when it ceased. One and three-quarters inches fell last Friday.

Two cars of coal were set off here this morning and made prospects much brighter. One of the cars was for Harry Pea and the other one was for Dan Matlock, which came to

BIG CROWD AT LAST MEETING

New Members Are Welcomed Into
The Epworth League

An immense crowd was present at the last meeting of Win-My-Chum Week held by the Epworth League in the Methodist church last evening. The Girl's high school Glee club sang two beautiful numbers, "Keep the Home Fires Burning" and "Ashes of Roses," there was a selection by a quartette and C. E. Parke played a violin solo. The Rev. C. S. Black made a good talk and the pastor and League cabinet welcomed the new members of the League who have joined during the week.

PRIVATE IN BATTERY A DIES AT CAMP SHELBY

Clarence E. Riley, Son of Decatur
County Farmer Who Enlisted
Here Last June Expires Sunday

BODY IS SENT TO GREENSBURG

(Special to the Daily Republican.)

Camp Shelby, Miss., Dec. 10.—Private Clarence E. Riley of Decatur county, Indiana, Battery A, 139 Field Artillery, died at the base hospital here early Sunday morning of bronchial pneumonia. The disease was brought on by exposure while convalescing from the measles. The body has been sent to Greensburg, Ind., for military burial.

This is the first death in Company B, which was recruited at Rushville, Indiana during the summer and transferred to Battery A, 139th artillery, after reaching Camp Shelby. This is also the first death from disease in the whole regiment.

Private Riley was twenty-two years of age and was the son of Samuel Riley, a farmer living southeast of Greensburg, Ind. Riley enlisted at Rushville, Indiana last June.

FOUR MORE LEAVE TODAY TO ENLIST

Three of Them Will Try For Avia-
tion Section of the Signal
Corps, One For Navy

DUANE REED IS ACCEPTED

Four more Rushville boys went to Indianapolis today to enlist, three in the aviation branch of the signal corps and one in the navy. Enlistments have been increasing in the few days, the majority of them being in the flying branch of the service.

Jerome Caron, Irwin Greely and Harry Schatz all expected to try for the flying section. Ernest Church of Bussard's garage, went to Indianapolis with the intention of trying for a place as mechanic in the navy. He was exempted by the county selection board and for that reason did not need a permit from the board to enlist, as his discharge papers are sufficient evidence that he does not come in the current quota.

Word has been received that Duane Reed, a high school student, was accepted in the aviation section of the signal corps and is now at Fort Thomas, Ky. There are thirteen from this county now in this branch of the service.

RAYMOND HAMILTON, WHO ENLISTED HERE, DIES IN FRANCE

Son of Mrs. Edith McKee Expires of Measles and
Pneumonia, Washington Dispatch
Announces Today.

ENLISTED IN CO. B; WAS TRANSFERRED

Four more deaths from natural causes among the American expeditionary forces were announced in Washington dispatches today.

In the list was the name of Raymond Hamilton, who is the son of Mrs. Edith McKee and a nephew of Mrs. Albert Pea both of this city.

He was a private in the artillery, and died December 8 of a complication of measles and pneumonia.

Hamilton is the first Rush county soldier in the world war to die either from wounds or natural causes.

Private Hamilton enlisted in Company B here and was one of the surplus of men which Company B had

and was transferred to Company M at Indianapolis to raise that company to war strength. Then each company was called on to supply a given number of men to fill out the Indiana artillery regiment, which became a unit in the Rainbow division, and Hamilton was one of the men transferred.

The Rainbow division embarked for France on October 18, after having been in camp at Mineola, Long Island, for several weeks, and its arrival was announced several days ago. The division evidently reached France somewhere near the

THIRTEEN SWORN INTO ARTILLERY

Recruits Will be Accepted by Byron
Cowing Until Thursday When
Enlisting Closes

INSPECTION IS AWAITED

Tone of Orders Received Indicate
Men Will Drill Here This Win-
ter—May be in Battery C

Thirteen young men were sworn into the local unit of the Second Indiana Artillery on Saturday night in the sheriff's office by Mr. Gerard of Indianapolis, an officer in the Adjutant General's office, and orders have been received here by Byron Cowing, who recruited the unit, to have the men ready at any time for inspection, which will be held within a short time.

In all, about twenty young men have enlisted in the unit and thirteen have passed the physical examination. Enlistments are continuing and will be accepted until Thursday by Mr. Cowing. Although the Second Indiana has reached war strength more recruits are being accepted at present to fill the vacancies that are expected because of physical defects.

The local unit will be in Company C. of the regiment, it is thought, although it has not been definitely assigned. Drill will be taken up vigorously and will start on Thursday evening at 7:30 in the corridors of the court house. The orders received this morning by Mr. Cowing asked that he send in a report stating what facilities were at hand for a temporary armory or place for the men to drill. In view of that request, it is probable that the local unit will drill here this winter and go to a training camp early in the spring, although this is not definitely known.

The men are already preparing for the inspection which will be conducted by an army officer. The inspection will also be made in each town in the state where units of the Second Indiana have been recruited. Some of these places are Noblesville, Terre Haute, Anderson, Crawfordsville, Evansville and Indianapolis. Mr. Cowing urges that all men interested in enlisting consult him and enlist as soon as possible for no enlistments can be accepted after Thursday of this week.

The young men who were sworn in on Saturday night were Raymond Clifford, James Brown, Ralph McCorkle, Ralph Clarkson, William Stiers, James Cregar, Albert Pea, Harry Hendricks, Everett Lee, Roy E. Lee, Chester Perrin, Leslie Trobaugh and Byron Cowing.

ANOTHER TEACHER JOINS THE COLORS

Orus Malott Leaves to Enlist in the
Navy, Making Third Member
of Faculty to go to War

TWO NEW TEACHERS ARRIVE

E. E. Owens to Teach History And
Coach Athletics and Roy Ken-
nedy is in Science Department

Another high school teacher has "joined the colors." Orus Malott, instructor in the commercial courses in the high school, went to Indianapolis Saturday to enlist in the navy as an apprentice and if possible obtain a position in the clerical department in the navy.

This makes a total of three teachers who have enlisted within the last week and R. J. Cullipher is awaiting the next call in the draft. This is Mr. Malott's first year in teaching in the local schools and his home is in Noblesville. He was a student in Butler college before his graduation. It is not known when he will leave for active service.

A telegram was received at the high school this morning saying that W. C. Wiley and R. P. Blank who left Friday for Fort Thomas had been sworn into the service. Mr. Wiley was science instructor and Mr. Blank taught history and coached athletics. They have entered the quartermaster's corps.

Teachers arrived today to fill their places at the high school. E. E. Owens of Lebanon, Ind., will teach history and coach athletics. Mr. Kennedy has had experience in teaching, his last position having been at North Salem. It happened that he was not teaching this year because he was a candidate in the second training camp at Fort Benjamin Harrison. Mr. Owens accepts the position for the remainder of the school.

Roy Kennedy of Westport who comes to teach science may teach only this week and may stay permanently. He is connected with the Boys Working Reserve and it may be necessary for him to leave school for work in the Reserve. If not called for service in that capacity, he will remain in the local schools.

R. J. Cullipher, whose draft number will be called in the next quota, endeavored to enlist in service, but the exemption board refused to give him a permit because he was needed on the next call. He will teach up until the time he is called and provision has been made for a teacher for the Manual Training department of the school when he is called.

COUNTY MANAGERS TO MEET

Will Plan Red Cross Membership
Drive at New Castle Wednesday

George Barnard, district chairman for the Red Cross membership drive opening one week from today, has called a meeting of county campaign managers to be held at Newcastle on Wednesday when plans for the drive will be made. A. L. Riggs has been appointed chairman for this county. Each county is expected to have 21 per cent of its population enrolled in the Red Cross at the close of the drive and the Rush county chapter already has twenty per cent of the people as members.

AVIATOR SPEAKS AT HIGH SCHOOL

Lt. Raymond Ross, Who Has Seen
Active Service in France, Ad-
dresses Pupils Today

WILL RETURN TO DUTY JAN. 9

Lieutenant Raymond Ross of Crawfordsville, now of the French aviation service addressed the Junior and Senior high schools this morning, telling in a very interesting manner of his experiences in the aviation school at Avord France, the largest school of the kind in the world, and of his service over the German lines. The lieutenant described very clearly the different steps necessary in obtaining an education in aviation and told of the different classes of pilots, of which he is a "fighting pilot." The different kinds of flying machines were also described by the aviator.

Lieutenant Ross entered French service before this country entered the war and has been home on a furlough visiting his parents, Mr. and Mrs. Charles W. Ross of Crawfordsville. He sails for France, January 9. At present he is spending several days visiting friends in this city.

SUFFERS SEVERELY IN FALL DOWN STAIRS

Mrs. Sarah Price Breaks Two Bones
in Right Arm and Her Body
And Head Are Bruised

IS EXPECTED TO RECOVER

Mrs. Sarah E. Price was very painfully injured on Saturday night when she slipped on the top step of the stairway and fell the entire way down. The fall was a very severe one and Mrs. Price's weight was thrown on her face and shoulders, cutting a bad gash over her right eye, bruised her head badly and spraining the muscles in her chest and shoulders.

Both bones were broken in the wrist of her right arm. Several stitches were taken in the cut over her eye. Although, Mrs. Price's injuries are very painful her condition is not thought to be serious unless complications come up from the condition of her head. The accident occurred about 9 o'clock Saturday night at her home in West Second street.

8 CENTS FOR POUND LOAF

Price Food Administration Fixes on
Cash and Carry Plan

Indianapolis, Ind., Dec. 10.—Eight cents has been fixed by the United States food administration as the retail price of a one pound loaf of unwrapped bread made by the formula prescribed by the government and which every baker in the country must follow beginning today.

The price is made on a cash and carry basis, grocers giving credit and delivery may charge more.

JERUSALEM IS WRENCHED FROM TURKS

Holy City Once More in Christian
Hands After Being Dominated
by Infidels 401 Years

HERALDED AS A GOOD OMEN

Recognized as Most Cherished
Christmas Gift That the World
Could be Given Now

TURKISH LINE IS CUT OFF

General Allendys Will Make Formal
Entrance Into Shrine of Chris-
tendom Tomorrow

(By United Press.)

London, Dec. 10.—Jerusalem has fallen.

Capture of the holy city by General Allendys, British expedition forces leader, was announced today.

The holy city is under Christian control again for the first time in 401 years. During all that time it had been under sway of the Turks.

Bonar Law, chancellor of exchequer, made the announcement in the house of commons late today. The news spread like wildfire throughout London. Its fall was heralded as a good omen, the most cherished Christmas gift that the world could be given, after having been held by infidel hordes for four centuries.

Bonar Law declared that on Saturday the British attacked Turkish lines southwest and northwest of the city and drove the enemy from these positions. Jerusalem was thus isolated. The Turkish commander then surrendered.

General Allendys will make his formal entrance into the shrine of Christendom tomorrow.

Two bodies of British troops surrounded the city and cut the Turkish line of communications. Thereupon they surrendered.

British armies began their sweep up the valley of Palestine from the Suez canal early last spring. General Murray and later General Allendys pushed steadily against the Turks.

Jerusalem's fate was sealed when on Nov. 1 Gaza was taken, immediately after taking the ancient city of Beersheba. General Allendys sent his forces rapidly north and a fortnight later they took Jaffa.

Bethlehem where the Savior was born is six miles south of Jerusalem and is presumably also now in British hands.

Jerusalem's fall will be a tremendous blow at Turkish morale, according to the belief here today.

Recent dispatches have indicated Enver Pasha, Turkey's ambitious war minister and the man who conceived the Turko-German alliance, was tottering from his place of power while British armies were sweeping all before them in Mesopotamia and Palestine.

JURY DISAGREES TODAY

Unable to Reach Verdict in Bird-
Haydon Damage Suit

The jury disagreed this afternoon after deliberating since morning in the case of Rosa Bird against Hilary Haydon for \$5,000, which was the outgrowth of an automobile collision. The case started Friday and the evidence was finished Saturday evening and the case given to the jury this morning.

The Wagner perjury case set for today was continued because the special judge, W. A. Hough of Greenfield, could not come. A special venire of 30 had been drawn for the case.

REO

For the Professional and Business Man

THE FOUR CYLINDER REO Roadster is ideal for that constant service required by the man who uses his car several times every day.

SUCH A CAR MUST be ready and on the job all the time. It must be absolutely reliable in performance, and as free from mechanical faults as it is humanly possible to make it.

AND ABOVE ALL the upkeep must be low—for when one drives a car steadily, the gasoline and tire and repair bills are more apparent than in the case of a car used mostly for pleasure, and therefore intermittently.

MORE REO ROADSTERS are in service in hands of professional and business men—Doctors, Lawyers, Contractors, Salesmen, Solicitors, Overseers, etc.—than of any other make of similar size and price.

AND THAT IS BECAUSE of the wonderful sturdiness and the low upkeep of this Reo.

IT IS EASILY and readily manipulated through the densest of traffic. Switches, spark and throttle control are mounted on the steering column and so within handy reach of the driver in his natural driving position.

THE REO ONE ROD control, too, is the simplest and most convenient for the shifting of gears.

EQUIPPED WITH Reo-Remy starting, lighting and ignition system—than which none is better—it is a complete and efficient Roadster ready at all times for instant use.

FOR FALL AND WINTER months you can have it equipped with the convertible coupe body. Price so equipped is \$1160.

WHERE ELSE CAN YOU, for that price, obtain such a classy Roadster, and one with a Reo reputation?

WE'VE BEEN UNABLE until recently, to fill orders on this model. But they are coming faster now—so if your order is in at once, we can promise you a reasonably early delivery.

FOOT HEALTH IS VERY RARE THING

Practice of Bathing the Feet is a Great Virtue, Dr. J. N. Hurty Declares

NOT WELL TO NEGLECT THEM

They Are Often Mistreated, Too, With Fashionable Shoes Same As Heathens Do

By Dr. J. N. HURTY
(Written for United Press.)

That foot health is very rare among municipal hospital patients will be attested by all physicians and nurses connected with such institutions. The poor and unsuccessful are almost always unclean. Paupers are always unclean. They don't bathe because they don't like cleanliness. Bromidrosis is the big word for sick feet. It is also applied to those whose bodies, on account of discontinuance of the bath, give forth bodily emanations.

There is undoubtedly virtue in the frequent bath; and as for the frequent foot-bath, its practice is a great virtue. It will prevent bromidrosis every time. Deformed feet are numerous, so numerous, it may be said that normal feet as not to be found.

Of course, we deform our feet with fashionable shoes. It is fashion that deforms the feet of Chinese women. It is the same in Christian lands. There feet is "flat foot" which unfits so many for military service. It ranks second as a cause for rejection in the navy. Defective vision is first and defective teeth third. Isn't it strange, we so neglect the hygiene of our eyes, of our teeth, and of our feet? It doesn't pay a little bit, and yet, we who so continually prate economy, spend our eyes, teeth and feet like a drunken sailor spends his money.

Incorrect standing and walking are ascribed as the chief causes of fallen arches, flat feet and many other foot troubles; and our foolishly shaped shoes help us materially toward foot troubles.

Correct posture, and how to walk and to stand, should be taught children in that most important of all teaching, the making of the child into a good animal. Health supervision of children is the first necessity in education, and although this is as plain as the nose on one's face, it is not done in Indiana. However, it is looked after in heathen Japan, and some day that people may send us missionaries to teach us how to train up our children in a way they should go. Health and proper physical training helps materially to advance morals, and the first and greatest conservation is that of the child.

Perhaps if your head were as clear as a whistle, it would not ache—

RELIEF FROM COLD WAVE IS NOT IN SIGHT

Continued From Page 1

him through the fuel administration. It is one of two cars consigned to another point in the county and released for Rushville when the dealer to whom they were originally shipped decided he had enough to meet the needs of the community. The other one of these two cars was the one Reed and son received Saturday. Today all of it was gone. Reed and son were busy all day Sunday selling coal because the demands of people without fuel were heavy. No objection was heard to selling coal on Sunday when people were suffering from cold.

There are six cars of coal on the road, ordered through the fuel administration, which should be here any day. Reed and son have received word that two cars were shipped Dec. 5 and two more the following day. The other two cars are consigned to Dan Matlock.

The county fuel administrator wishes people to understand that he has no coal for sale. Many have been calling him and asking that coal be delivered to them. All coal coming through the fuel administration is handled by some dealer.

Not all of the rural mail carriers were able to cover their routes today. One carrier did not attempt to deliver his mail at all and up to one o'clock, of all the carriers from whom reports had been received, only two had delivered all of their mail. Postmaster Hunt had not heard from some of the carriers at that time. Four carriers were stuck in snow drifts and had to return to Rushville. Postmaster Hunt said today that if farmers wanted their mail they would have to keep their roads cleared or the mail could not be delivered. One carrier was able to go over his route because four loads of hogs had been hauled over the road early this morning.

The gas supply of all companies was low. In some instances gas meters were frozen up and families were without any means of heating their homes. Most people who have been depending on gas for heat were buying coal stoves today and dealers were setting up new stoves as fast as possible.

ACME Worm Bouncer

To my customers:

On account of the increased cost of manufacture, I was compelled to advance the price on ACME WORM BOUNCER October 29th, 1917, and the following prices are now in force:

50 lb drums	\$ 4.75 each
100 lb drums	9.25 each
150 lb drums	14.00 each
300 lb lots	28.00 each
500 lb lots	42.50 each
1000 lb lots	81.25 each

Self Feeders will be shipped free with the first orders as follows:

One Self Feeder free with	150 lb drums
Two Self Feeders free with	300 lb lots
Three Self Feeders free with	500 lb lots
Three Self Feeders free with	1000 lb lots

Above prices are subject to a cash discount of 2% 15 days. ACME WORM BOUNCER is now fed at the small cost of 6¢ per month. Hogs must be fed something to expel and prevent free intestinal worms and the Cholera which is caused by them. It does not take many worms to eat up 6¢ worth of feed at these prices. ACME WORM BOUNCER will expel the free intestinal worms from hogs, horses and sheep (if they have any), WILL POSITIVELY PREVENT THOSE WORMS and prevent over 90% of the hog Cholera which is caused by them, keep the bowels just right, the appetite good, and place the hogs in such condition that they will make the most of the feed and care given them. ACME WORM BOUNCER is honest goods at honest prices, and only remedy fed successfully in Self Feeders.

During the years ACME WORM BOUNCER has been fed, I do not know of a single customer who has fed ACME WORM BOUNCER for 30 days and continued to feed it and thereafter lost hogs with Cholera. You must feed your hogs something. Then why not feed a remedy which will positively produce these results? — and the results you must produce in order to make hogs pay.

50 HUTMENTS TO BE BUILT IN FRANCE

They Are Popular With The Officers of the Salvation Army, Miss Booth Declares

COFFEE FOR NIGHT GUARDS

Six Huts With Bed Rooms Where The Mothers Can Be Entertained Are Opened

New York, Dec. 10.—Announcement was made here today by Commander Evangeline Booth that The Salvation Army proposes the immediate erection of 50 additional hutments in France to be administered by 100 American Salvation Army Officers, mostly women, and 500 lay workers. The initial cost of this venture will be about \$500,000 the cost of each hutment slightly over \$6,000. Miss Booth announced that The Hutments already in operation have become so popular with both officers and men that she sees no limit to the amount of work that the Salvation Army will be called upon to do.

In commenting upon this work, Sec. of War Baker recently wrote, "We are very glad to observe that The Salvation Army is lending its powerful and in many ways unique aid in the general cooperation of the community at large with the military activities of the country. This cooperation is a new thing in the world's history and the War Department welcomes and is grateful for such help as you and your associates can give."

Quite as interesting are the letters which come from men fighting for their country in France. "I am hanging out at The Salvation Army Hut most of the time," writes one boy to his mother, "and the four American women make it seem more like home than any place I know. They serve cake and chocolate every evening. All of the fellows like it."

When the first snow storm of the season swept down upon the American camps. The Salvation Army lassies staid up all through the night making steaming hot coffee which they carried out to all of the men on guard duty. "It was hard work," wrote one of the lassie Captains, "and we were all cold and wet, but not nearly so cold and wet as men on post who had to fight their way forward and backward through the falling snow and wind. You should have heard them thank us for the coffee, which we gave them every half hour or so."

Six hutments have already been opened adjacent to the Cantonments in this country, most of these in addition to game and reading rooms, have a number of comfortably furnished bed rooms where mothers of the men in training can be entertained. Mr. Raymond B. Fosdick, who keeps a very watchful eye upon the social operations in and about the training camps, recently said of the work accomplished by the Salvation Army: "I can truthfully say that what has been done by your organization under our general direction has been well done." Many more of these hutments are to be erected and those already in operation will some of them be enlarged.

Much comment has been made upon the fitness of The Salvation Army for this particular work and none of it has been unfavorable. No other organization has so many devoted women thoroughly trained and ready to sacrifice their comfort and leave safety and home for the uncertain and strenuous life in the war camps. The Salvation Army girl

Personal Points

—Mrs. Dan Matlock and Mrs. Will Frazee were visitors in Indianapolis.

—Mrs. Fred Arbuckle returned today from a visit with relatives in Greensburg.

—Gene Gates who is employed in Indianapolis spent Sunday with friends in this city.

—Miss Dove Meredith of Indianapolis spent the week-end with home-folks in this city.

—Mrs. Lilly Rea and son will leave Wednesday for Florida, where they will spend the winter.

—Joe Cowing went to Richmond today to attend the board meeting of the Eastern Indiana hospital.

—Mrs. Louis Mauzy has returned from a visit of several weeks with Miss Ruth Collins of Washington, D. C.

—Mrs. Homer Havens returned today from Indianapolis where she has been visiting relatives for several days.

—Miss Lillian Winter returned to Palestine, Ill., yesterday after spending the week-end with friends in this city.

—Miss Augusta Welker of Beech Grove visited here this morning enroute to Milroy where she teaches in the schools.

—Alfred Norris returned to Crawfordsville today after spending several days with his parents, Mr. and Mrs. Vern Norris.

—Lieutenant Ralph Wicks of Anderson arrives this evening for a visit with Mr. and Mrs. E. B. Thomas of North Morgan street.

—Will Oliphant of Greensburg spent Sunday with his mother, Mrs. Mary McIlwaine, who was seriously ill, but is improved today.

—Miss Mary Jeffries returned to her home in Indianapolis today after spending the week-end with Mr. and Mrs. Jess Drake of this city.

—Mrs. Mary Doyle of Decatur, Ill., is here, having been called home on account of the illness of her grandmother, Mrs. Mary McIlwaine.

—Mr. and Mrs. E. L. Morris have returned home from a several days visit in Louisville, Ky. They were called there on account of the serious illness of Mr. Morris' father, W. H. Morris, who was formerly of this county.

—Mrs. T. E. McAllister went to Indianapolis this morning for a visit with her mother. She was accompanied by her daughter, Miss Alberta McAllister, who is attending Sanderson Business college and spent the week-end in this city.

—Mr. and Mrs. Richard Sipe and daughter, Ruth, returned to their home in Indianapolis today after visiting Mr. and Mrs. Austin Frazee of this city. Mr. Sipe spent Sunday here and Mrs. Sipe and daughter have made an extended visit.

who goes to the front goes with the knowledge that she must face the same dangers and hardships as do the soldiers and that she must work even harder. It is no wonder that the soldiers of the Expeditionary forces regard them with very real and affectionate respect.

The funeral services of Theodore Miller of south of Arlington were conducted this afternoon at two o'clock by the Rev. Daniel Ryan.

A Great Discovery

Swollen hands, ankles, feet are due to a dropsical condition, often caused by disordered kidneys. Naturally when the kidneys are deranged the blood is filled with poisonous waste matter, which settles in the feet, ankles and wrists; or under the eyes in bag-like formations.

As a remedy for those easily recognized symptoms of inflaming urine, backache and frequent urination, as well as sediment in the urine, or if uric acid in the blood has caused rheumatism, lumbago, sciatica, gout, it is simply wonderful how quickly Anuric acts; the pains and stiffness rapidly disappear.

The very best possible way to take care of yourself is to take a glass of hot water before meals and Anuric, the discovery of Dr. Pierce of Buffalo, N. Y.

Step into any drug store and ask for a 50c. package of Anuric, which is many times more potent than lithia and eliminates uric acid almost as hot water melts sugar. A short trial will convince you.

WOULD TESTIFY.

Lewis, Ind.—“For a long time I suffered from backache, pain in left side, frequent kidney excretion, bothering me at all times during the day and night, and the uric acid in my blood caused me to suffer from rheumatism along with a constant tired, worn-out feeling. I heard of Anuric the discovery of Dr. Pierce, of the Invalids' Hotel, Buffalo, N. Y., and I at once began its use. After giving it a good trial I believe it to be the best kidney remedy on the market today. I have tried other kidney medicines, but these Anuric Tablets of Dr. Pierce's are the only ones, in my opinion, that will cure kidney and bladder troubles.”—HENRY A. LOVE.

Indiana Always Leads

Once more Indiana leads. Having furnished a greater proportion of volunteer soldiers, a larger per cent over its allotment of both Liberty loan bond issues, a similar excess in the Y. M. C. A. and Red Cross campaigns; the gunner who fired the first shot for the world-wide freedom and one of the trio who first gave their lives in the war against autoeracy, the state now comes forward with a Hoover model family.

In an open letter to the United States Food Administrator, the editor of the American Cooperative Journal tells the story of food conservation practiced by this Indiana family of five, on a farm.

In addition to operating 160 acres doing most of the work himself, the husband helped with the garden and the heavier part of housework. The wife managed the house, doing all her cooking, sewing and washing, raised 125 pure bred chickens and put up canned goods as follows: 141 quarts of fruit, 84 jars of jams and jellies, 126 quarts of relish, 72 quarts of vegetables. An abundant winter supply of potatoes, squash, cabbage, beets, turnips, popcorn and apples also was stored away.

This work was the result of an agricultural eight-hour day—eight hours in the forenoon and eight in the afternoon. The editor states that when the true record of the nation is finally written, when the last battle has been fought and the Stars and Stripes come home victorious, great praise will be due those who have fought the battles in the kitchen and in the truck patch.

The Indiana State Council of Defense gives publicity to this instance in the hope that the example will be emulated. To prove its authenticity, as the proprietary medicine maker says, name will be furnished on request.

Motion Pictures to Aid

Official motion pictures bringing home the vital importance of increased food production will be shown by the United States Department of Agriculture in hundreds of regular motion picture theaters throughout the United States. The first releases, which are to be handed under an agreement with the Universal Film Manufacturing Company through its exchanges, will be made early in December. The first film will show activities in the National Forests, which are important sources of timber and water supply and also afford grazing for a large number of cattle and sheep.

The second release, which will follow in about two weeks, will show what children through the pig clubs are doing to increase the supply of pork. Other selections from the department's 40,000 feet of official subjects will make clear various features of food production, the raising of meat animals and horses, and will deal with home activities such as poultry raising and the canning and drying of perishable products.

The department laboratories are at work on a number of other popular films, especially designed to make clear to city as well as rural populations, problems of food production and to show them ways in which

TALKS AT DINNER INDIANA SOCIETY

Senator James E. Watson Makes Principal Address at War Meeting of Hoosiers in Chicago

ONE OBJECT IS WIN THE WAR

He Recalls That Indiana Never Falters, Has Never Failed in Any Emergency

Senator James E. Watson made the principal address at the thirteenth annual dinner of the Indiana Society at the Congress hotel in Chicago Saturday night. Will H. Hays, chairman of the State Council of Defense, also spoke.

Chicago dispatches say that five hundred Hoosiers, all thoroughbred Americans cheered until they were hoarse, when both speakers assured the banqueters that Indiana, the state of their birth, will not be found wanting in any demands the government may make on it to successfully prosecute the war.

The stirring patriotic addresses brought to a close one of the most pretentious, most loyal banquets Chicago has seen in a long time.

“It is the one vital supreme object of the American Congress to win this war,” said Senator Watson, and we must forget all things else in the supreme demand of the hour.

“Indiana is a state that never falters, has never failed in any day of crisis in the history of the land.

“Stupendous problems confront this nation, problems that must need command the supreme consecration of all citizens and dedication without reserve of all our resources. Only by such mobilization and consecration can we win this war. Are we in this war for territorial aggrandizement, acquisition of wealth actuated by selfish motives or pur-

+++++
+ Marriage Licenses +
+ Issued 50 Years Ago +
+++++

Nora Smith and Sam H. Bosley were married fifty years ago today by the Rev. William A. Hutchison, having procured a marriage license on December 3 previous. Christina Thomas and John S. Wilson were married the same day by the same minister and also got their license the same day as the other couple, which makes it look very much like this was a double wedding.

they can cooperate effectively to feed the Nation and the allies.

American Congressmen visiting the battle fronts in Europe should not rely too much on the fact that they are used to being under fire at home. There's a difference.

We are told the allies' greatest need is big guns. Well, we ought to be able to furnish them all the big guns they need. We've been hearing them roar over here all our lives.

Luke McLuke says that kissing destroys the sense of smell. Likewise a sense of smell frequently interferes very seriously with kissing.

The fellow who is over anxious to get you in his debt is frequently just as anxious to get you out again.

VINOL MAKES GOOD BLOOD

Positive—Convincing Proof

Many so-called remedies for anemia are only so in name. Their makers are afraid to prove their claims by telling what their medicines contain. The only way to be honest with the people is to let them know what they are paying for. Here is the Vinol formula. When the doctor knows what a medicine contains, it ceases to be a “patent” medicine.

It Cod Liver and Beef Peptones, Iron and Manganese Peptones, Iron and Ammonium Citrate, Lime and Soda Glycophosphates, Casein.

Any doctor will tell you that the ingredients of Vinol, as named above, will enrich the blood and banish anemia and create strength. When the blood is pure and rich and red, the body is strong and robust.

You can prove this at our expense because your money will be returned if Vinol does not improve your health. J. B. JOHNSON & CO., Druggists, Rushville, and at the best drug store in every town and city in the country.

poses? God forbid. We are in this war for two reasons—to protect our rights and the safety of republican institutions in this world.”

The banqueters, after embibing appetizers in regulation army mess tents, groped their way through improvised trenches to reach the banquet hall. The corridor resembled a front-line trench, with soldiers peering “over the top” and dugouts at intervals. Lanterns here and there pierced the darkness and painted walls lent a touch of realism to the scene.

“Bolsheviki fizzle” was served in the Russian mess tent, “Piave bracers” in the Italian camp, “Verdun

smashes” in the French tent and “Canadian pep” at the British mess.

Our New Cash-Carry Plan

Owing to the food situation we are going to change our plan of doing business. On and after Dec. 10, 1917, our terms will be

STRICTLY CASH AND NO DELIVERY

We feel that with the elimination of our delivery system and selling for STRICTLY CASH we can give the public a much better price on food stuff.

The Government has requested the utmost efforts on our part toward reducing the cost of delivering merchandise. Your patriotism, we know, will encourage your co-operation in assisting us to comply with the request. You will agree that every store operating a delivery system of any kind is an extra expense which the public pays.

“IT PAYS TO CARRY IT HOME”

This co-operation will help greatly toward a saving and will result in lower price to you, as our method of selling goods is based entirely on the cost of merchandise, plus expense and reasonable profit. Therefore we say

The Lower the Expense—the Lower the Cost to You!

Winship and Denning

SAVE COAL!

Get the heat value of every pound of coal.

LEARN HOW TO CARE FOR THE FURNACE.

1. Chimneys and furnace pipes should always be kept clean to get the best results.
2. Don't smother a low fire by adding too much fresh fuel at one time. Build it up gradually.
3. Always carry a deep or high fire in mild weather; leave from four to six inches of ashes on the grates; this lessens the draft through the fire and causes a slower fuel consumption. Don't shake or poke the fire too much—just enough to make room for the adding of enough fresh coal to keep fire going.
4. When putting on several shovels of coal in banking a fire for the night, leave a part of the fire exposed so that any gases from the coal will be consumed.
5. Before feeding a furnace see that the shut-off damper in the pipe is open and close the check damper.
6. Keep the ash pit empty. Ashes banked up under the grate prevent necessary air circulation, hinder combustion and tend to warp the grate bars.
7. If you are having any furnace trouble call .

KRAUSS CASE UP TO BOARD OF PARDONS

Woman Charged With Murder of Step-Daughter and Serving Life Term

PETITIONED FOR PADON

Four Other Cases up for Hearing—
Ralph Berger, Dwarf Sentenced for Killing Father

(By United Press.)

Indianapolis, Ind., Dec. 10.—The state board of pardons, meeting today, had before it the unusual case of Mrs. Rae A. Krauss.

Mrs. Krauss was the second wife of a man prominent in affairs of Hartford City. By his first marriage, Krauss had one daughter, Crystal, who opposed her father's remarriage, and after the wedding stood between the attachment of husband for his wife.

One day the daughter died in convulsions. A note was found tending to indicate that she had killed herself because of unhappy home life. During an investigation, a boy was found who had purchased strychnine for Mrs. Krauss. She was arrested, sensational evidence was introduced at the trial and in 1904 she was sentenced to life imprisonment.

Once before she petitioned for a pardon but a large number of persons appeared before the board and objected so strongly that she was sent back to prison.

Four other murder cases were up for hearing. Demitar Lemak, a steel worker in Gary, who killed a fellow workman during a drunken fight, in 1909, is asking for clemency.

John Nolting, sentenced from Daviess county in 1906 for murder, and William Adams, sentenced 1899 from Sullivan county.

Considerable interest is manifested in petition for pardon for Ralph Berger, a dwarf, sentenced for killing his father. The prisoner is 45 inches tall, weighs 89 pounds and up to the time of his conviction, wore dresses. Berger claims the gun was discharged accidentally. He quarreled often with his father, however, the state proved at the trial. The petitioners claim he is mentally defective.

TODAY'S ODDDEST STORY

Evansville, Ind., December 10.—The sanity of John Jordan hinges on whether he will get to see his son, John, soon. John is a soldier at Camp Shelby and attempts are going to be made by the family to get him a discharge. The father has been constantly homesick for his son since he left for the camp.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c per box. All druggists.

INDIANA PLANS FOR SPEAKER'S BUREAU

Indiana Holds Conference to Supply Orators With Material to Be Used in Specific Drives

20 TALKS BY LIEUT. PERIGORD

Speakers From the Battle Front Arouse the Patriotic Spirit of the People

Indianapolis, Ind., Dec. 10.—Indiana has "put over" another big war move in having her plan for a speakers' bureau in the State Council of Defense adopted by the National Council of Defense as a national plan for disseminating patriotism among the people. This accepted original plan is in addition to Indiana's patriotic text book for high schools carrying the propaganda of Americanism and the United States Boys' Working Reserve to the boys and girls of the state, which text book now is being demanded in other states and at Washington with a view to adopting the Indiana war time educational method the nation over.

Not only has the Indian speakers' bureau plan found favor at Washington, where it has been reproduced, but the methods worked out in Indiana are to be applied at Washington in handling the patriotic propaganda promulgated by the speakers' bureau of the National Council of Defense.

Indiana holds frequent war conferences of speakers for the purpose of supplying the orators with specific material and ammunition to be used in specific drives or movements. For example, some seventy per cent are called together in Indianapolis to give a day to preparing themselves to speak on behalf of the drive for the sale of Red Cross Christmas seals, which drive comes the second week of December. This Hoosier scheme for priming the oratorical guns has been found good enough to be used by the National Council of Defense in its own speakers' department.

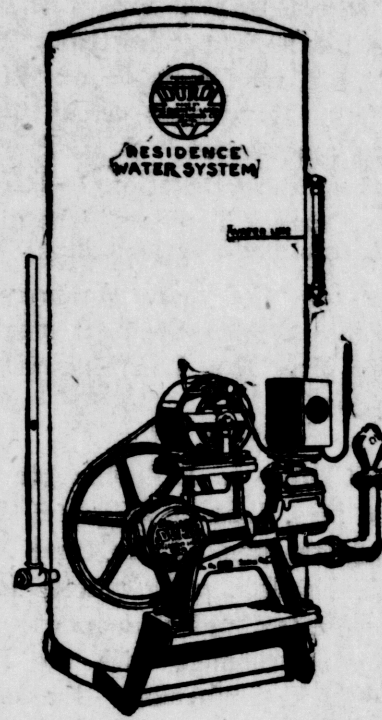

The people of Indiana are interested in knowing that the speakers' bureau of the National council of Defense is cooperating with the bureau of the State Council of Defense in getting good speakers and in coordinating the patriotic activities which have to do with holding of patriotic meetings and with the advancement of various war funds and war tasks. The bureau at Washington, for instance, is to supply a number of speakers from the battle fronts to be heard in Indiana and in other states.

Notable among these inspired and impressive speakers have been Captain Hugh Knyvett of Australia and Lieutenant Paul Perigord of France, whose meetings in Indiana have been notably effective in rousing the patriotic spirit of the people and in driving home the truths as to the war, its causes and its meaning.

Lieutenant Perigord made twenty speeches in Indiana in the course of a week and through the efforts of the Councils of Defense in the counties to which he was assigned the unusually large crowds were assembled to hear his remarkable message. The utmost patriotic enthusiasm accompanied him everywhere on his tour, and in all directions his speeches were highly praised, while the effect of the meetings was declared to be exceedingly wholesome and beneficial.

The Perigord tour was the first venture of the speakers' bureau of the National Council of Defense, and the effort was made in Indiana for the reason that Indiana already had operated a speakers' bureau and was organized to cooperate efficiently and promptly with the National Council and its bureau. The success of the Perigord trip means that many other such tours will be arranged for men from the battle fronts and for the best known orators in the country, all in co-operation with States Councils of Defense as was the case in Indiana.

Answering the Soft Water Question

A "DURO" Soft Water System of ample capacity for the average or large family costs but little more than the old-fashioned water lift.

The Woman's Missionary society of the First Presbyterian church will meet with Mrs. J. T. Arbuckle tomorrow afternoon at her home in East Seventh street. Mrs. Lee Pyle will be the assistant hostess. Mrs. Bennett will read a paper on "Modern World Movements—God's Challenge to the Church." Mrs. Pierson will give the Devotional—Delilah and the Current Topics will be given by Mrs. Taylor. This is the last meeting for the year. January 15 is the date set for the next meeting at which time Mrs. Lon Link will be the hostess.

Miss Gladys L. Hill, daughter of Mr. and Mrs. John O. Hill, and William English, son of Mr. and Mrs. John L. English, were quietly married yesterday afternoon at the Methodist parsonage with the Rev. C. S. Black performing the ceremony. The attendants at the wedding were Miss Florence Lower and Denzel Mull. Mr. English and his bride will make their home with the parents of the bride-groom on a farm in the county.

The meeting of the Ladies Aid society of the Christian church which was to have been held tomorrow in the church parlors has been postponed until Tuesday of next week. The change was made on account of the weather and coal situation.

Mr. and Mrs. E. H. Hackleman entertained at their home in Falmouth yesterday with an elegant course dinner yesterday. The guests were the Rev. G. F. Power, Miss Mariam Fry and D. C. Allen of Jeffersonville.

The Monday Study Circle of Milroy had an all day meeting today with Mrs. Claud Crane. At noon the guests enjoyed a pitch-in dinner and the ladies sewed for the Red Cross.

Social Calendar

Tuesday

Woman's Foreign Missionary society of the Methodist church with Mrs. R. F. McClanahan, 122 West Fifth street, in the afternoon.

O. N. T. club with Mrs. Anna Churchill, at the home of Mrs. L. L. Allen, 222 West Fifth street, in the afternoon.

500 club with Mrs. Fred Cochran, 314 West Fourth street, in the evening.

Sorosis club with Mrs. J. T. Paxton, 333 West Seventh street, in the afternoon.

Minnehaha club with Mrs. Walter Smith, 815 North Sexton street, in the afternoon.

Woman's Missionary society of the First Presbyterian church with Mrs. J. T. Arbuckle, 114 East Seventh street, assisted by Mrs. Lee Pyle.

Mr. and Mrs. G. V. Conaway entertained yesterday at noon when the guests were Mr. and Mrs. Austin Frazee and Dr. and Mrs. D. H. Dean and family.

The S. E. T. Club which was to have met with Mrs. Vern Norris tomorrow has been postponed indefinitely. Further announcement will be made later.

The Shakespeare Club meets this evening at the home of the Misses Jessie and Pearl Kitchen in West Third street.

PLANS BEING MADE FOR TRIP TO CAMP SHELBY

Shelbyville Man Wants 42 Required to Get Special Car for a Christmas Visit

TO BE OF 5 DAYS DURATION

The Southern Railway in arranging to haul a special car of people from this part of the state to Camp Shelby, Miss., to spend Christmas if forty or forty-two persons make arrangements to go. The price for the round trip will be \$42.50, including sleeper accommodations from Cincinnati. The sleeper will be left at Hattiesburg and may be used by the visitors, which will save hotel bills, conveniences of heat and water being provided on the car. Those who wish to go should communicate with George K. Smith of Shelbyville.

The traveling program provides for a five days' trip with a stay of two days, December 24 and 25, in Hattiesburg and at Camp Shelby (the railroad fare from the town to the camp is ten cents), and a stop of one day at Chattanooga on the way home. The train will leave here December 22 and return December 27.

News dispatches announce that relatives and friends of the soldiers at Camp Shelby are given an invitation to visit them at Christmas time, and no better time might be chosen to pay a visit to the camp.

Days Pickings

Fred H. Finlaw filed suit in circuit court today against Charles Murphy on an account, demanding \$125.

Charles Naden was fined \$1 and costs in police court this morning for intoxication and the fine was stayed.

Two patients who have had diphtheria have been released from quarantine having received reports on a negative culture. They are Mable Hankins and Martin Joyce.

The Standard Oil company filed suit in circuit court today against Walter C. Rheinheimer, doing business under the firm name of the Ohio Construction Co., for \$250 on an account.

The Band of Workers of the First Presbyterian church will meet on Wednesday afternoon at the home of Mrs. Lon Link in North Perkins street. Mrs. Link will be assisted in entertaining by Mrs. J. K. Hinkle and Mrs. Maud Wolcott.

Amusements

Madge Evans will appear in "The Little Duchess," at the Princess theatre tonight. She is known as the most charming little actress in pictures. Tomorrow this theatre will show the first of a number of Paramount Artercraft pictures, "The Little Miss Optimist," in which Miss Vivian Martin and Tom Moore are starred. It is a dandy comedy-drama. Clara Kimball Young will be seen in "Magda" Friday.

"The Brat," a comedy by Maude Fulton, comes to the Murat in Indianapolis tonight to remain throughout the week. Its plot has to do with the quest of a cynical, sophisticated novelist for a character type which he calls a "brat." Finally he discovers what he is seeking in the person of a small scrap of humanity, a girl, caught up in the police net and hauled into court for a first offense of which, incidentally, she is not guilty. The "brat" thus discovered is taken into the novelist's

home, where she remains for six weeks. At the end of that time, having finished with her, the writer is quite willing to cast her forth again. In the meantime, however, the young woman has been the means of saving the young son of the household, who is fast falling into a life of idleness and drunkenness and is a factor, as a human element, not so easily disposed of. Finally circumstances are readjusted to the satisfaction of all concerned and the conclusion does not fail to bring happiness to the "brat" as well.

Miss Fulton not only wrote the play—which enjoyed a season's run in New York—but also appears in the title role. In her support will be seen Edmund Lowe, Percival T. Moore, Gertrude Maitland, Helen Stewart, Ruth Hold Boucicault, John Findlay and others. The engagement includes matinee performances

Wednesday and Saturday afternoons. Hargrove and Mullin are local agents.

MASCONIC MEETING

There will be a Stated Meeting of Phoenix Lodge No. 62 F. & A. M., Tuesday evening 7:30 p. m. The annual Election of Officers will take place. A large attendance is desired.

Nothing could please the recipient more than a beautiful set of furs. Annis Furs, for which this store is the exclusive agent, are better than lots of furs—their label is at once a guarantee to you and a mark of unusual merit. Our showing comprises fox, lynx, wolf, opossum, roccoon, skunk, squirrel, and coney. Select the scarf, muff or set you wish and we shall reserve them for you till later.

THE GIFT COUNTER is fairly ablaze with 1917's newest offerings in novelties contrived from silver, mahogany, glass, brass, nickel and leather. The handsome pieces of Sheffield silver are especially noteworthy. We suggest a mahogany chest of Community silver — only \$10.00

TRAVELING LUGGAGE An extraordinary showing of trunks, bags and suit cases for both gentlemen and ladies. Why not a regulation army trunk for a man or a beautifully fitted wardrobe trunk for a lady.

THE HOOVER Electric Cleaner would make an ideal gift. We shall be pleased to demonstrate it to you. Several well known Vacuum Cleaners and Carpet Sweepers among our offering.

Choose bed room slippers for men, women and children now while sizes are complete.

We are offering some wonderful bargains in ladies' suits coats and dresses now. Why not save the difference?

STATE BAKERS TO PROCURE LICENSE

Regulations Started by Federal Food Director Today—Subject to Food Administration

SPECIFIC WEIGHTS ARE SET

Sugars and Fats Can Not be Added to Dough During the Process of Baking

(By United Press.)

Indianapolis, Ind., Dec. 10.—Regulation of Indiana bakers by H. E. Barnard, federal food director for Indiana, began today. Every baker using ten barrels or more of flour a month will be subject to the food administration. The county food administrators have been instructed to see that every baker in their territory has procured a license.

The shops which went under federal control were urged to do all possible to conserve wheat by eliminating waste, re-sales, buying, or selling for price manipulation, fixing weights after baking, and by limiting ingredients, encouraging sales direct from wholesalers, consumers, and less frequent deliveries. Other orders to bakers were issued as follows:

"The baker shall manufacture bread and offer it for sale only in the following specified weights, or multiples thereof which shall be net weights unwrapped twelve hours after baking: 16-ounce units (not to run over 17 ounces), 24 ounce units (not to run over 25 1/2 ounces).

"The baker shall manufacture rolls and offer them for sale only in units weighing from 1 to 3 ounces, but no rolls shall be manufactured or offered for sale which shall weigh unwrapped 12 hours after baking, less than 1 ounce or more than 3 ounces.

"The standard weights herein prescribed shall be determined by averaging the weight of not less than 25 loaves of bread of any one unit, or five dozen rolls of any one unit, and such average shall not be less than minimum nor more than the maximum prescribed by these rules and regulations for such units.

LOOK FOR SUPREME EFFORT

Allies Prepared For Enemy Drive on The Italian Front

(By United Press.)

With the French Armies in Italy, Dec. 8.—French troops are in action against the ever increasing masses of the Austro-Germans. Preparation has been made for the German's supreme efforts to break through the Italian lines. The Italian front is becoming heavier with masses of men, guns and material. Heavy artillery is now being brought to the fighting lines in large numbers.

REVOLT IN PORTUGAL

(By United Press.)

London, Dec. 10.—A revolution has broken out in Portugal, official advices state. Pillaging and rioting are reported from Old Porto. The revolution is centered in Lisbon.

IS THIS YOUR EXPERIENCE?

Many Rushville People Are Afflicted With Annoying Kidney Ills

Are you bothered with too frequent action of the kidneys? Are the secretions highly colored—do they contain sediment—burn and scald in voiding? These are all signs of kidney sickness and should not be neglected. Rushville people recommend Doan's Kidney Pills. If your back aches and your kidneys are weak you will find no better recommended remedy.

Taylor M. Loyd, 940 W. Third St., Rushville, says: "My back ached steadily and at times was so weak I could hardly get about. The kidney secretions were first too frequent in passage; then again didn't pass often enough. I used about four boxes of Doan's Kidney Pills which I got at Pitman & Wilson's Drug Store and they did just as recommended, relieving me in a short time."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Loyd had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.—(Adv.)

ANTI-SALOON BODY PLANS BIG DRIVE

Senate Approved Dry Amendment At Last Session and House Is Expected to Support Measure.

REVERSES ARE MET IN IOWA

Winning of Ohio and A Few Other Industrial States Is Essential to Prohibition Strategy

Washington, Dec. 8.—Reports of its most successful year and plans for its biggest effort—the drive for national prohibition at the present session of Congress—are before the convention of the National Anti-Saloon league, which met here today.

In its three sessions, announcements are expected of a number of congressmen pledged to support the dry amendment when it comes to a vote. Careful canvasses have made this known, league leaders say, within a very few votes.

Success for the resolution which will submit the question to the several states is assured, according to the officials, by an overwhelming vote. Only the House remains to be won, the Senates having approved the measure last session.

Prominent among the nationally known men who will address the 2,000 delegates are Senators Sheppard, Tex. and Borah, Ida.; and Reps. Barkley, Ky.; Webb, N. C.; Fess, O., and William Jennings Bryan.

There will be jubilations over the capture of these states since the last convention, in July, 1916: Michigan, Montana, Indiana, New Hampshire, North Dakota, Nebraska and New Mexico. The District of Columbia also was voted dry by Congress.

Reverses were met in Iowa, where the voters rejected a dry constitutional amendment, although the dry statute remains in effect; and in Ohio, by so close a vote that a contest is expected.

Winning of Ohio and one or two more eastern industrial states is regarded as essential to prohibition strategy. Even if congress submits the dry resolution, it will be—unless its present form is amended—in such shape that it must be approved by three-fourths of all the states within six years.

Any 13 of the states could necessitate making the fight all over again.

FATHER OF CHIEF OF POLICE EXPIRES

John H. Yakey, Age 77, Dies at Goshen, Ohio, Sunday of Heart Trouble and Dropsy.

VETERAN OF THE CIVIL WAR

Chief of Police A. L. Yakey received word Sunday of the death of his father, John H. Yakey, at his home in Goshen, Ohio. His death was due to organic heart disease and dropsy. Mr. Yakey had been ill for some time, word having come to the chief of police from time to time in the last month that his father was failing, but death was not expected. Mr. Yakey went to Goshen today to attend the funeral.

In his youth, Mr. Yakey lived in Indiana and enlisted in the 39th Indiana volunteer infantry regiment at the outbreak of the civil war and was later transferred to the 8th cavalry. He was seventy-seven years of age and retired from business several years ago. Mr. Yakey was a member of the Odd Fellows lodge, the G. A. R. and the Methodist church.

He is survived by the widow, a son and daughter by his second wife, and A. L. Yakey of this city, whose mother was his first wife. He is also survived by a sister living in Chicago.

20,000 SEALS PUT IN THE MAIL TODAY

Enclosed With Each 100 Is Self Addressed Envelope So One Receiving Them May Return \$1

FOLLOWED SEVERAL YEARS

This Plan Results in Large Sale of Christmas Stickers—on Sale in Many Places

Two hundred letters enclosing 100 Red Cross Christmas seals, a stamped addressed envelope and a letter describing the need and purpose of the seals were mailed this afternoon and will be received tomorrow morning by a number of the business men of the city. In the letters, the men are requested to return a check for one dollar paying for the seals. This method has been repeated for several years by those in charge of the seal campaign because many persons prefer to buy their seals in this manner.

With this plan, the campaign for the sale of seals has been started in earnest. Anyone wishing to purchase the little stickers may do so at any drug store. The seals are also on sale at the Red Cross headquarters. Over the county, the campaign is being managed by the members of the auxiliaries of the Red Cross society. Within a few days, there will be a stand daily at the postoffice when persons will be urged to purchase the seals.

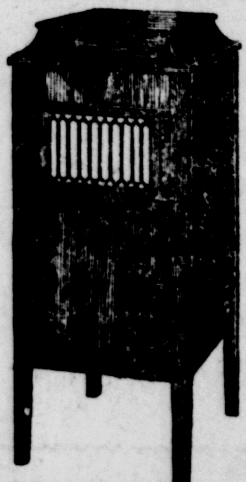

Many persons are using Red Cross seals exclusively in sealing up Christmas packages. The plan is a good one and a gift sealed with these little stickers carries the true idea of the Christmas spirit. The drive is being made with more vigor than ever this year over the entire country because of the need of the fight against tuberculosis in the armies. With this in view, the local girls who have the campaign in charge are planning various ways to push the sale and advertise the need of patronage.

The holiday shoppers all know that we are featuring a good variety of

Christmas Gifts

and we want you, too, to look over our offerings. There are many new things that we are sure will delight you.

AMERICA RAISES IMMENSE CROPS

Demand For Food Inspired Farmers to Raise Greatest Crops of Grain in History

PEOPLE DO NOT REALIZE IT

Practically Every Necessary Food is Produced in Large Quantities—Small Import

(By United Press.)

Indianapolis, Ind., Dec. 10.—“The American people do not realize what astounding crops this country is producing,” said H. E. Barnard, state food administrator today. He said:

“The demand for food, more food, that has spurred our farmers to produce the greatest crops of grain we have ever harvested, is inspired by the world shortage of the one thing, that even in war times, when we think in terms of armies and munitions, we must have. We do not know as we should that we produce in the United States nearly 2,000,000,000 pounds of butter annually, and that we import less than 1,000,000,000 pounds. We produce 25,000,000 pounds of meats in one year, and import less than one-half of one per cent of that amount. The central powers have had to legislate meat out of use on certain days of the week. An egg in Germany today is a rare delicacy. Here we have a domestic supply of 2,000,000,000 dozens of eggs a year, or 20 dozen eggs for each man, woman and child in the country. This means about four and a half eggs per person each week.

“Our cows supply us with about 7,500,000,000 gallons of milk a year, from which we take a part to manufacture more than 300,000,000 pounds of cheese, or ten times the amount we import. When we hear of a shortage in the potato crop of the central empires, it is well to remember that we grow about 450,000,000 bushels within our own borders, and import but little more than 200,000. Of corn, wheat and rice we produce a total of 4,000,000,000 bushels, compared to an import of 5,000,000 bu. of corn, chiefly from Argentina; 6,000,000 bushels of wheat chiefly from Canada and 2,500,000 pounds of rice largely from China, England and the Netherlands. To vary our national diet we produce 25,000,000 boxes of oranges, lemons and grape fruit.”

TRY TO TRIPLE SALE OF SEALS

To Raise Fund of Three Million Dollars With Red Cross Christmas Stickers

INCREASED NEED WITH WAR

Estimated That Two Per Cent of Drafted Men Infected With Tuberculosis

How many Red Cross Christmas Seals did you buy last year? Will you buy three times as many this year?

Unless every purchaser of Red Cross Seals triples his or her purchase this year, the creation of a \$3,000,000 War Tuberculosis Fund will not be possible.

The American Red Cross and The National Association for the Study and Prevention of Tuberculosis

WOMEN'S MEETING HAD TO BE POSTPONED

Organization for War Work is Held Up Temporarily on Account of Bad Weather

TO BE PERFECTED THIS WEEK

The meeting of the women from each township in the county called for Saturday to organize for war work was postponed on account of the weather. The meeting was called by Mrs. A. L. Stewart and was to have been held in the director's room of the People's National Bank. One woman in each township in the county has been chosen to head the women of her township in war activities under the direction of the County Council of Defense. All organizations working for war relief will work indirectly under the Council in order that the work may be divided.

The purpose of the meeting for Saturday was to appoint committees to head each of the war activities to be undertaken by women in the county. An endeavor will be made to complete the organization and appointment of committees before the state meeting of the Council of Defense is held in Indianapolis Thursday and Friday when a number of representatives from local organizations will attend.

losis are making a drive for the creation of this fund because America's entry into the war has revealed thousands of hitherto unsuspected cases of tuberculosis that must be cared for, and because every precaution must be taken to

safeguard our troops abroad against the great white plague. Last year \$1,050,000 was made for the anti-tuberculosis campaign by the sale of Red Cross Seals. This means that 105,000,000 holiday tokens were sold. To raise the war

fund of \$3,000,000 it will be necessary to sell 300,000,000 seals this year, and every man, woman and child will have to help to do this by trebling last year's purchases. The buying of Red Cross Christmas Seals is not a humanitarian act.

30° Below Zero by Night

Would no doubt cause a great amount of suffering. These cold winter days and nights call for heavier clothing. Perhaps your last season's overcoat or heavy suit is a little shabby in appearance; maybe it needs a new lining or has a few soiled places. Bring your garments to us.

HAVE US DRY CLEAN, PRESS AND REPAIR THEM. Double your service on all your garments by giving them the proper attention. Our methods will insure long wear.

With Xmas only a few days off, it would be advisable to place your dry cleaning and pressing order for this occasion as soon as possible. Give your clothes a newish appearance.

RELIEF FROM COLD WAVE IS NOT IN SIGHT

Forecast is For Continued Cold on
Top of Two Days of Below
Zero Temperatures

MANY SUFFER INTENSELY

Three More Cars of Coal Arrive
Since Saturday, But Will
Scarcely Supply Needs Here

SEVEN CARS ON WAY HERE

Temperatures of 11 and 12 Below
Recorded Saturday and Sun-
day Nights—8 Above Today

Red Cross Closed on
Account of The Cold

Red Cross headquarters had to be closed today on account of the cold weather. Mrs. Harrie Jones, secretary, announced that headquarters would be opened again just as soon as the weather moderated, but that it was impossible to heat the Masonic temple today so that it would be comfortable for workers. Mrs. Jones said an extra effort would be made when headquarters is opened to make up for the loss of time because of lack of heat.

Intense suffering among poor people because of the zero temperature which prevailed Saturday night, Sunday and Sunday night was reported today. Many calls for relief were received by the township trustee, J. V. Young and S. L. Trabue, county fuel administrator, has been busy most of the time since Saturday afternoon answering the telephone because people in want of coal have looked to him for relief.

The car of coal reaching T. H. Reed and Son did not last over Sunday and there were prospects of three other cars arriving since Saturday evening being unloaded and sold by tonight. These three cars will scarcely relieve the shortage temporarily but six more cars shipped by the fuel administration should arrive by the time the present supply is exhausted. There is no certainty however when they will be here. A seventh car is expected by T. H. Reed and Son, it having been purchased by Frank Capp in Virginia and consigned to them.

No moderation in temperature was promised by today's weather forecast. The weather bureau said fair and continued cold tonight and Tuesday. The mercury never rose over eight degrees above zero all day, which was only twenty degrees warmer than the lowest temperature last night.

That the county was contending today with the most severe cold weather since last February was revealed by the records of the weather observer for the county, Elwood Kirkwood, at Maunzy. This morning's temperature was the coldest, the mercury registering twelve below zero. Yesterday morning the temperature by the government thermometer was eleven below. This was a drop of thirty degrees in twenty-four hours, the temperature on Saturday morning having been nineteen above zero.

Mr. Kirkwood said that there was seven inches of snow on the ground this morning, five and a quarter inches having fallen from the time the snow storm began Saturday morning until Sunday evening when it ceased. One and three-quarters inches fell last Friday.

Two cars of coal were set off here this morning and made prospects much brighter. One of the cars was for Harry Pea and the other one was for Dan Mallock, which came to

BIG CROWD AT LAST MEETING

New Members Are Welcomed into
The Epworth League

An immense crowd was present at the last meeting of Win-My-Chum Week held by the Epworth League in the Methodist church last evening. The Girl's high school Glee club sang two beautiful numbers, "Keep the Home Fires Burning" and "Ashes of Roses," there was a selection by a quartette and C. E. Parke played a violin solo. The Rev. C. S. Black made a good talk and the pastor and League cabinet welcomed the new members of the League who have joined during the week.

PRIVATE IN BATTERY A DIES AT CAMP SHELBY

Clarence E. Riley, Son of Decatur
County Farmer Who Enlisted
Here Last June Expires Sunday

BODY IS SENT TO GREENSBURG

(Special to the Daily Republican.)

Camp Shelby, Miss., Dec. 10.—Private Clarence E. Riley of Decatur county, Indiana, Battery A, 139 Field Artillery, died at the base hospital here early Sunday morning of bronchial pneumonia. The disease was brought on by exposure while convalescing from the measles. The body has been sent to Greensburg, Ind., for military burial.

This is the first death in Company B, which was recruited at Rushville, Indiana during the summer and transferred to Battery A, 139th artillery, after reaching Camp Shelby. This is also the first death from disease in the whole regiment.

Private Riley was twenty-two years of age and was the son of Samuel Riley, a farmer living southeast of Greensburg, Ind. Riley enlisted at Rushville, Indiana last June.

FOUR MORE LEAVE TODAY TO ENLIST

Three of Them Will Try For Avia-
tion Section of the Signal
Corps, One For Navy

DUANE REED IS ACCEPTED

Four more Rushville boys went to Indianapolis today to enlist, three in the aviation branch of the signal corps and one in the navy. Enlistments have been increasing in the few days, the majority of them being in the flying branch of the service.

Jerome Caron, Irwin Greely and Harry Schatz all expected to try for the flying section. Ernest Church of Bussard's garage, went to Indianapolis with the intention of trying for a place as mechanic in the navy. He was exempted by the county selection board and for that reason did not need a permit from the board to enlist, as his discharge papers are sufficient evidence that he does not come in the current quota.

Word has been received that Duane Reed, a high school student, was accepted in the aviation section of the signal corps and is now at Fort Thomas, Ky. There are thirteen from this county now in this branch of the service.

RAYMOND HAMILTON, WHO ENLISTED HERE, DIES IN FRANCE

Son of Mrs. Edith McKee Expires of Measles and
Pneumonia, Washington Dispatch
Announces Today.

ENLISTED IN CO. B; WAS TRANSFERRED

Four more deaths from natural causes among the American expeditionary forces were announced in Washington dispatches today.

In the list was the name of Raymond Hamilton, who is the son of Mrs. Edith McKee and a nephew of Mrs. Albert Pea both of this city. He was a private in the artillery and died December 8 of a complication of measles and pneumonia.

Hamilton is the first Rush county soldier in the world war to die either from wounds or natural causes.

Private Hamilton enlisted in Company B here and was one of the surplus of men which Company B had

and was transferred to Company M at Indianapolis to raise that company to war strength. Then each company was called on to supply a given number of men to fill out the Indiana artillery regiment, which became a unit in the Rainbow division, and Hamilton was one of the men transferred.

The Rainbow division embarked for France on October 18, after having been in camp at Mineola, Long Island, for several weeks, and its arrival was announced several days ago. The division evidently reached France somewhere near the

THIRTEEN SWORN INTO ARTILLERY

Recruits Will be Accepted by Byron
Cowing Until Thursday When
Enlisting Closes

INSPECTION IS AWAITED

Tone of Orders Received Indicate
Men Will Drill Here This Win-
ter—May be in Battery C

Thirteen young men were sworn into the local unit of the Second Indiana Artillery on Saturday night in the sheriff's office by Mr. Gerard of Indianapolis, an officer in the Adjutant General's office, and orders have been received here by Byron Cowing, who recruited the unit, to have the men ready at any time for inspection, which will be held within a short time.

In all, about twenty young men have enlisted in the unit and thirteen have passed the physical examination. Enlistments are continuing and will be accepted until Thursday by Mr. Cowing. Although the Second Indiana has reached war strength more recruits are being accepted at present to fill the vacancies that are expected because of physical defects.

The local unit will be in Company C. of the regiment, it is thought, although it has not been definitely assigned. Drill will be taken up vigorously and will start on Thursday evening at 7:30 in the corridors of the court house. The orders received this morning by Mr. Cowing asked that he send in a report stating what facilities were at hand for a temporary armory or place for the men to drill. In view of that request, it is probable that the local unit will drill here this winter and go to a training camp early in the spring, although this is not definitely known.

The men are already preparing for the inspection which will be conducted by an army officer. The inspection will also be made in each town in the state where units of the Second Indiana have been recruited. Some of these places are Noblesville, Terre Haute, Anderson, Crawfordsville, Evansville and Indianapolis. Mr. Cowing urges that all men interested in enlisting consult him and enlist as soon as possible for no enlistments can be accepted after Thursday of this week.

The young men who were sworn in on Saturday night were Raymond Clifford, James Brown, Ralph McCordle, Ralph Clarkson, William Stiers, James Cregar, Albert Pea, Harry Hendricks, Everett Lee, Roy E. Lee, Chester Perrin, Lashie To

ANOTHER TEACHER JOINS THE COLORS

Orus Malott Leaves to Enlist in the
Navy, Making Third Member
of Faculty to go to War

TWO NEW TEACHERS ARRIVE

E. E. Owens to Teach History And
Coach Athletes and Roy Ken-
nedy is in Science Department

Another high school teacher has "joined the colors." Orus Malott, instructor in the commercial courses in the high school, went to Indianapolis Saturday to enlist in the navy as an apprentice and if possible obtain a position in the clerical department in the navy.

This makes a total of three teachers who have enlisted within the last week and R. J. Cullipher is awaiting the next call in the draft. This is Mr. Malott's first year in teaching in the local schools and his home is in Noblesville. He was a student in Butler college before his graduation. It is not known when he will leave for active service.

A telegram was received at the high school this morning saying that W. C. Wiley and R. P. Blank who left Friday for Fort Thomas had been sworn into the service. Mr. Wiley was science instructor and Mr. Blank taught history and coached athletics. They have entered the quartermaster's corps.

Teachers arrived today to fill their places at the high school. E. E. Owens of Lebanon, Ind., will teach history and coach athletics. Mr. Kennedy has had experience in teaching, his last position having been at North Salem. It happened that he was not teaching this year because he was a candidate in the second training camp at Fort Benjamin Harrison. Mr. Owens accepts the position for the remainder of the school.

Roy Kennedy of Westport who comes to teach science may teach only this week and may stay permanently. He is connected with the Boys Working Reserve and it may be necessary for him to leave school for work in the Reserve. If not called for service in that capacity, he will remain in the local schools.

R. J. Cullipher, whose draft number will be called in the next quota, endeavored to enlist in service, but the exemption board refused to give him a permit because he was needed on the next call. He will teach up until the time he is called and provision has been made for a teacher for the Manual Training department of the school when he is called.

COUNTY MANAGERS TO MEET

Will Plan Red Cross Membership
Drive at New Castle Wednesday

George Barnard, district chairman for the Red Cross membership drive opening one week from today, has called a meeting of county campaign managers to be held at Newcastle on Wednesday when plans for the drive will be made. A. L. Riggs has been appointed chairman for this county. Each county is expected to have 21 per cent of its population enrolled in the Red Cross at the close of the drive and the Rush county chapter already has twenty per cent of the people as members.

AVIATOR SPEAKS AT HIGH SCHOOL

Lt. Raymond Ross, Who Has Seen
Active Service in France, Ad-
dresses Pupils Today

WILL RETURN TO DUTY JAN. 9

Lieutenant Raymond Ross of Crawfordsville, now of the French aviation service addressed the Junior and Senior high schools this morning, telling in a very interesting manner of his experiences in the aviation school at Avord France, the largest school of the kind in the world, and of his service over the German lines. The lieutenant described very clearly the different steps necessary in obtaining an education in aviation and told of the different classes of pilots, of which he is a "fighting pilot." The different kinds of flying machines were also described by the aviator.

Lieutenant Ross entered French service before this country entered the war and has been home on a furlough visiting his parents, Mr. and Mrs. Charles W. Ross of Crawfordsville. He sails for France, January 9. At present he is spending several days visiting friends in this city.

SUFFERS SEVERELY IN FALL DOWN STAIRS

Mrs. Sarah Price Breaks Two Bones
in Right Arm and Her Body
And Head Are Bruised

IS EXPECTED TO RECOVER

Mrs. Sarah E. Price was very painfully injured on Saturday night when she slipped on the top step of the stairway and fell the entire way down. The fall was a very severe one and Mrs. Price's weight was thrown on her face and shoulders, entailing a bad gash over her right eye, bruised her head badly and spraining the muscles in her chest and shoulders.

Both bones were broken in the wrist of her right arm. Several stitches were taken in the cut over her eye. Although Mrs. Price's injuries are very painful her condition is not thought to be serious unless complications come up from the condition of her head. The accident occurred about 9 o'clock Saturday night at her home in West Second street.

8 CENTS FOR POUND LOAF

Price Food Administration Fixes on
Cash and Carry Plan

Indianapolis, Ind., Dec. 10.—Eight cents has been fixed by the United States food administration as the retail price of a one pound loaf of unwrapped bread made by the formula prescribed by the government and which every baker in the country must follow beginning today. The price is made on a cash and carry basis, no credit being given and delivery may change more.

JERUSALEM IS WRENCHED FROM TURKS

Holy City Once More in Christian
Hands After Being Dominated
by Infidels 401 Years

HERALDED AS A GOOD OMEN

Recognized as Most Cherished
Christmas Gift That the World
Could be Given Now

TURKISH LINE IS CUT OFF

General Allendys Will Make Formal
Entrance Into Shrine of Chris-
tendom Tomorrow

(By United Press.)

London, Dec. 10.—Jerusalem has fallen.

Capture of the holy city by General Allendys, British expedition forces leader, was announced today.

The holy city is under Christian control again for the first time in 401 years. During all that time it had been under sway of the Turks.

Bonar Law, chancellor of exchequer, made the announcement in the house of commons late today. The news spread like wildfire throughout London. Its fall was heralded as a good omen, the most cherished Christmas gift that the world could be given, after having been held by infidel hordes for four centuries.

Bonar Law declared that on Saturday the British attacked Turkish lines southwest and northwest of the city and drove the enemy from these positions. Jerusalem was thus isolated. The Turkish commander then surrendered.

General Allendys will make his formal entrance into the shrine of Christendom tomorrow.

Two bodies of British troops surrounded the city and cut the Turkish line of communications. Thereupon they surrendered.

British armies began their sweep up the valley of Palestine from the Suez canal early last spring. General Murray and later General Allendys pushed steadily against the Turks.

Jerusalem's fate was sealed when on Nov. 1 Gaza was taken, immediately after taking the ancient city of Beersheba. General Allendys sent his forces rapidly north and a fortnight later they took Jaffa.

Bethlehem where the Savior was born is six miles south of Jerusalem and is presumably also now in British hands.

Jerusalem's fall will be a tremendous blow at Turkish morale, according to the belief here today.

Recent dispatches have indicated Enver Pasha, Turkey's ambitious war minister and the man who conceived the Turk-German alliance, was tottering from his place of power while British armies were sweeping all before them in Mesopotamia and Palestine.

JURY DISAGREES TODAY

Unable to Reach Verdict in Bird-
Haydon Damage Suit

The jury disagreed this afternoon after deliberating since morning in the case of Rosa Bird against Hilary Haydon for \$5,000, which was the outgrowth of an automobile collision. The case started Friday and the evidence was finished Saturday evening and the case given to the jury this morning. The Wagner perjury case set for today was continued because the special judge, W. A. Hough of Greenfield, could not come. A special venire of 30 had been drawn for the case.

REO

For the Professional and Business Man

THE FOUR CYLINDER REO Roadster is ideal for that constant service required by the man who uses his car several times every day.

SUCH A CAR MUST be ready and on the job all the time. It must be absolutely reliable in performance, and as free from mechanical faults as it is humanly possible to make it.

AND ABOVE ALL the upkeep must be low—for when one drives a car steadily, the gasoline and tire and repair bills are more apparent than in the case of a car used mostly for pleasure, and therefore intermittently.

MORE REO ROADSTERS are in service in hands of professional and business men—Doctors, Lawyers, Contractors, Salesmen, Solicitors, Overseers, etc.—than of any other make of similar size and price.

AND THAT IS BECAUSE of the wonderful sturdiness and the low upkeep of this Reo.

IT IS EASILY and readily manipulated through the densest of traffic. Switches, spark and throttle control are mounted on the steering column and so within handy reach of the driver in his natural driving position.

THE REO ONE ROD control, too, is the simplest and most convenient for the shifting of gears.

EQUIPPED WITH Reo-Remy starting, lighting and ignition system—than which none is better—it is a complete and efficient Roadster ready at all times for instant use.

FOR FALL AND WINTER months you can have it equipped with the convertible coupe body. Price so equipped is \$1160.

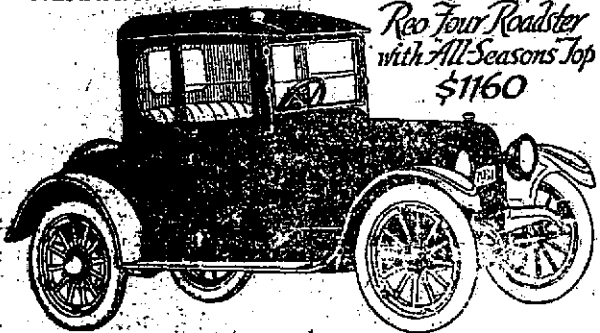

WHERE ELSE CAN YOU, for that price, obtain such a classy Roadster, and one with a Reo reputation?

WE'VE BEEN UNABLE until recently, to fill orders on this model. But they are coming faster now—so if your order is in at once, we can promise you a reasonably early delivery.

FOOT HEALTH IS VERY RARE THING

Practice of Bathing the Feet is a Great Virtue, Dr. J. N. Hurty Declares

NOT WELL TO NEGLECT THEM

They Are Often Mistreated, Too, With Fashionable Shoes. Same As Heathens Do

By Dr. J. N. HURTY

(Written for United Press.)

That foot health is very rare among municipal hospital patients will be attested by all physicians and nurses connected with such institutions. The poor and unsuccessful are almost always unclean. Paupers are always unclean. They don't bathe because they don't like cleanliness. Bromidrosis is the big word for sick feet. It is also applied to those whose bodies, on account of discontinuance of the bath, give forth bodily emanations.

There is undoubtedly virtue in the frequent bath; and as for the frequent foot-bath, its practice is a great virtue. It will prevent bromidrosis every time. Deformed feet are numerous, so numerous, it may be said that normal feet are not to be found.

Of course, we deform our feet with fashionable shoes. It is fashion that deforms the feet of Chinese women. It is the same in Christian lands. There feet is "flat foot" which unfit us so many for military service. It ranks second as a cause for rejection in the navy. Defective vision is first and defective teeth third. Isn't it strange, we so neglect the hygiene of our eyes, of our teeth, and of our feet? It doesn't pay a little bit, and yet, we who so continually prize economy, spend our eyes, teeth and feet like a drunken sailor spends his money.

Incorrect standing and walking are ascribed as the chief causes of fallen arches, flat feet and many other foot troubles; and our foolishly shaped shoes help us materially toward foot troubles.

Correct posture, and how to walk and to stand, should be taught children in that most important of all teaching, the making of the child into a good animal. Health supervision of children is the first necessity in education, and although this is as plain as the nose on one's face, it is not done in Indiana. However, it is looked after in heathen Japan, and some day that people may send us missionaries to teach us how to train up our children in a way they should go. Health and proper physical training helps materially to advance morals, and the first and greatest conservation is that of the child.

RELIEF FROM COLD WAVE IS NOT IN SIGHT

Continued From Page 1

him through the fuel administration. It is one of two cars consigned to another point in the county and released for Rushville when the dealer to whom they were originally shipped decided he had enough to meet the needs of the community. The other one of these two cars was the one Reed and son received Saturday. Today all of it was gone. Reed and son were busy all day Sunday selling coal because the demands of people without fuel were heavy. No objection was heard to selling coal on Sunday when people were suffering from cold.

There are six cars of coal on the road, ordered through the fuel administration, which should be here any day. Reed and son have received word that two cars were shipped Dec. 5 and two more the following day. The other two cars are consigned to Dan Matlock.

The county fuel administrator wishes people to understand that he has no coal for sale. Many have been calling him and asking that coal be delivered to them. All coal coming through the fuel administration is handled by some dealer.

Not all of the rural mail carriers were able to cover their routes today. One carrier did not attempt to deliver his mail at all and up to one o'clock, of all the carriers from whom reports had been received, only two had delivered all of their mail. Postmaster Hunt had not heard from some of the carriers at that time. Four carriers were stuck in snow drifts and had to return to Rushville. Postmaster Hunt said today that if farmers wanted their mail they would have to keep their roads cleared or the mail could not be delivered. One carrier was able to go over his route because four loads of hogs had been hauled over the road early this morning.

The gas supply of all companies was low. In some instances gas meters were frozen up and families were without any means of heating their homes. Most people who have been depending on gas for heat were buying coal stoves today and dealers were setting up new stoves as fast as possible.

RAYMOND HAMILTON EXPIRES IN FRANCE

ACME Worm Bouncer

To my customers:

On account of the increased cost of manufacture, I was compelled to advance the price on ACME WORM BOUNCER October 29th, 1917, and the following prices are now in force:

50 lb drums	\$ 4.75 each
100 lb drums	9.25 each
150 lb drums	14.00 each
300 lb lots	28.00 each
500 lb lots	42.50 each
1000 lb lots	81.25 each

Self Feeders will be shipped free with the first orders as follows:

One Self Feeder free with	150 lb drums
Two Self Feeders free with	300 lb lots
Three Self Feeders free with	500 lb lots
Three Self Feeders free with	1000 lb lots

Above prices are subject to a cash discount of 2% 15 days. ACME WORM BOUNCER is now fed at the small cost of 6¢ per month. Hogs must be fed something to expel and prevent free intestinal worms and the Cholera which is caused by them. It does not take many worms to eat up 6¢ worth of feed at these prices. ACME WORM BOUNCER will expel the free intestinal worms from hogs, horses and sheep (if they have any), WILL POSITIVELY PREVENT THOSE WORMS and prevent over 90% of the hog Cholera which is caused by them, keep the bowels just right, the appetite good, and place the hogs in such condition that they will make the most of the feed and care given them. ACME WORM BOUNCER is honest goods at honest prices, and only remedy fed successfully in Self Feeders.

During the years ACME WORM BOUNCER has been fed, I do not know of a single customer who has fed ACME WORM BOUNCER for 30 days and continued to feed it and thereafter lost hogs with Cholera. You must feed your hogs something. Then why not feed a remedy which will positively produce these results? — and the results you must produce in order to make hogs pay.

50 HUTMENTS TO BE BUILT IN FRANCE

They Are Popular With The Officers of the Salvation Army, Miss Booth Declares

COFFEE FOR NIGHT GUARDS

Six Huts With Bed Rooms Where The Mothers Can Be Entertained Are Opened

New York, Dec. 10.—Announcement was made here today by Commander Evangeline Booth that The Salvation Army proposes the immediate erection of 50 additional hutments in France to be administered by 100 American Salvation Army Officers, mostly women, and 500 lay workers. The initial cost of this venture will be about \$500,000, the cost of each hutment slightly over \$6,000. Miss Booth announced that The Hutments already in operation have become so popular with both officers and men that she sees no limit to the amount of work that the Salvation Army will be called upon to do.

In commenting upon this work, Sec. of War Baker recently wrote, "We are very glad to observe that The Salvation Army is lending its powerful aid in many ways unique in the general cooperation of the community at large with the military activities of the country. This cooperation is a new thing in the world's history and the War Department welcomes and is grateful for such help as you and your associates can give."

Quite as interesting are the letters which come from men fighting for their country in France. "I am hanging out at The Salvation Army Hut most of the time," writes one boy to his mother, "and the four American women make it seem more like home than any place I know. They serve cake and chocolate every evening. All of the fellows like it."

When the first snow storm of the season swept down upon the American camps. The Salvation Army lassies staid up all through the night making steaming hot coffee which they carried out to all of the men on guard duty. "It was hard work," wrote one of the lassie Captains, "and we were all cold and wet, but not nearly so cold and wet as men on post who had to fight their way forward and backward through the falling snow and wind. You should have heard them thank us for the coffee, which we gave them every half hour or so."

Six hutments have already been opened adjacent to the Cantonments in this country, most of these in addition to game and reading rooms, have a number of comfortably furnished bed rooms where mothers of the men in training can be entertained. Mr. Raymond B. Fosdick, who keeps a very watchful eye upon the social operations in and about the training camps, recently said of the work accomplished by the Salvation Army: "I can truthfully say that what has been done by your organization under our general direction has been well done." Many more of these hutments are to be erected and those already in operation will some of them be enlarged.

Much comment has been made upon the fitness of The Salvation Army for this particular work and none of it has been unfavorable. No other organization has so many devoted women thoroughly trained and ready to sacrifice their comfort and leave safety and home for the uncertain and strenuous life in the war camps. The Salvation Army girl

Personal Points

—Mrs. Dan Matlock and Mrs. Will Frazee were visitors in Indianapolis.

—Mrs. Fred Arbuckle, returned today from a visit with relatives in Greensburg.

—Gene Gates who is employed in Indianapolis spent Sunday with friends in this city.

—Miss Dove Meredith of Indianapolis spent the week-end with home-folks in this city.

—Mrs. Lilly Rea and son will leave Wednesday for Florida, where they will spend the winter.

—Joe Cowing went to Richmond today to attend the board meeting of the Eastern Indiana hospital.

—Mrs. Louis Mauzy has returned from a visit of several weeks with Miss Ruth Collins of Washington, D. C.

—Mrs. Homer Havens returned today from Indianapolis where she has been visiting relatives for several days.

—Miss Lillian Winter returned to Palestine, Ill., yesterday after spending the week-end with friends in this city.

—Miss Augusta Welker of Beech Grove visited here this morning enroute to Milroy where she teaches in the schools.

—Alfred Norris returned to Crawfordsville today after spending several days with his parents, Mr. and Mrs. Vern Norris.

—Lieutenant Ralph Wicks of Anderson arrives this evening for a visit with Mr. and Mrs. E. B. Thomas of North Morgan street.

—Will Oliphant of Greensburg spent Sunday with his mother, Mrs. Mary Mellwaine, who was seriously ill, but is improved today.

—Miss Mary Jeffries returned to her home in Indianapolis today after spending the week-end with Mr. and Mrs. Jess Drake of this city.

—Mrs. Mary Doyle of Deatur, Ill., is here, having been called home on account of the illness of her grandmother, Mrs. Mary Mellwaine.

—Mr. and Mrs. E. L. Morris have returned home from a several days visit in Louisville, Ky. They were called there on account of the serious illness of Mr. Morris' father, W. H. Morris, who was formerly of this county.

—Mrs. T. E. McAllister went to Indianapolis this morning for a visit with her mother. She was accompanied by her daughter, Miss Alberta McAllister, who is attending Sanderson Business college and spent the week-end in this city.

—Mr. and Mrs. Richard Sipe and daughter, Ruth, returned to their home in Indianapolis today after visiting Mr. and Mrs. Austin Frazee of this city. Mr. Sipe spent Sunday here and Mrs. Sipe and daughter have made an extended visit.

who goes to the front goes with the knowledge that she must face the same dangers and hardships as do the soldiers and that she must work even harder. It is no wonder that the soldiers of the Expeditionary forces regard them with very real and affectionate respect.

The funeral services of Theodore Miller of south of Arlington were conducted this afternoon at two o'clock by the Rev. Daniel Ryan.

KRAUSS CASE UP TO BOARD OF PARDONS

Woman Charged With Murder of Step-Daughter and Serving Life Term

PETITIONED FOR PADON

Four Other Cases up for Hearing—Ralph Berger, Dwarf Sentenced for Killing Father

(By United Press.)

Indianapolis, Ind., Dec. 10.—The state board of pardons, meeting today, had before it the unusual case of Mrs. Rae A. Krauss.

Mrs. Krauss was the second wife of a man prominent in affairs of Hartford City. By his first marriage, Krauss had one daughter, Crystal, who opposed her father's remarriage, and after the wedding stood between the attachment of husband for his wife.

One day the daughter died in convulsions. A note was found tending to indicate that she had killed herself because of unhappy home life. During an investigation, a boy was found who had purchased strychnine for Mrs. Krauss. She was arrested, sensational evidence was introduced at the trial and in 1904 she was sentenced to life imprisonment.

Once before she petitioned for a pardon but a large number of persons appeared before the board and objected so strongly that she was sent back to prison.

Four other murder cases were up for hearing. Demitar Lemak, a steel worker in Gary, who killed a fellow workman during a drunken fight, in 1909, is asking for clemency.

John Nolting, sentenced from Daviess county in 1906 for murder, and William Adams, sentenced 1899 from Sullivan county.

Considerable interest is manifested in petition for pardon for Ralph Berger, a dwarf, sentenced for killing his father. The prisoner is 45 inches tall, weighs 89 pounds and up to the time of his conviction, wore dresses. Berger claims the gun was discharged accidentally. He quarreled often with his father, however, the state proved at the trial. The petitioners claim he is mentally defective.

TODAY'S ODDEST STORY

Evansville, Ind., December 10.—The sanity of John Jordan hinges on whether he will get to see his son, John, soon. John is a soldier at Camp Shelby and attempts are going to be made by the family to get him a discharge. The father has been constantly homesick for his son since he left for the camp.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, gripping cathartics are derived from Dr. Edwards' Olive Tablets without gripping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c per box. All druggists.

INDIANA PLANS FOR SPEAKER'S BUREAU

Indiana Holds Conference to Supply Orators With Material to Be Used in Specific Drives

20 TALKS BY LIEUT. PERIGORD

Speakers From the Battle Front Arouse the Patriotic Spirit of the People

Indianapolis, Ind., Dec. 10.—Indiana has "put over" another big war move in having her plan for a speakers' bureau in the State Council of Defense adopted by the National Council of Defense as a national plan for disseminating patriotism among the people. This accepted original plan is in addition to Indiana's patriotic text book for high schools carrying the propaganda of Americanism and the United States Boys' Working Reserve to the boys and girls of the state, which text book now is being demanded in other states and at Washington with a view to adopting the Indiana war time educational method the nation over.

Not only has the Indian speakers' bureau plan found favor at Washington, where it has been reproduced, but the methods worked out in Indiana are to be applied at Washington in handling the patriotic propaganda promulgated by the speakers' bureau of the National Council of Defense.

Indiana holds frequent war conferences of speakers for the purpose of supplying the orators with specific material and ammunition to be used in specific drives or movements. For example, some seventy per cent are called together in Indianapolis to give a day to preparing themselves to speak on behalf of the drive for the sale of Red Cross Christmas seals, which drive comes the second week of December. This Hoosier scheme for priming the oratorical guns has been found good enough to be used by the National Council of Defense in its own speakers' department.

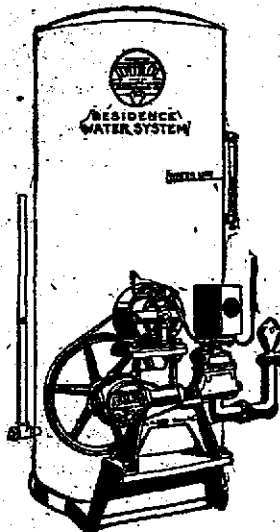

The people of Indiana are interested in knowing that the speakers' bureau of the National council of Defense is cooperating with the bureau of the State Council of Defense in getting good speakers and in coordinating the patriotic activities which have to do with holding of patriotic meetings and with the advancement of various war funds and war tasks. The bureau at Washington, for instance, is to supply a number of speakers from the battle fronts to be heard in Indiana and in other states.

Notable among these inspired and impressive speakers have been Captain Hugh Knyvett of Australia and Lieutenant Paul Perigord of France, whose meetings in Indiana have been notably effective in rousing the patriotic spirit of the people and in driving home the truths as to the war, its causes and its meaning.

Lieutenant Perigord made twenty speeches in Indiana in the course of a week and through the efforts of the Councils of Defense in the counties to which he was assigned the unusually large crowds were assembled to hear his remarkable message. The utmost patriotic enthusiasm accompanied him everywhere on his tour, and in all directions his speeches were highly praised, while the effect of the meetings was declared to be exceedingly wholesome and beneficial.

The Perigord tour was the first venture of the speakers' bureau of the National Council of Defense, and the effort was made in Indiana for the reason that Indiana already had operated a speakers' bureau and was organized to cooperate efficiently and promptly with the National Council and its bureau. The success of the Perigord trip means that many other such tours will be arranged for men from the battle fronts and for the best known orators in the country, all in cooperation with the National Council of Defense.

Answering the Soft Water Question

A "DURO" Soft Water System of ample capacity for the average or large family costs but little more than the old-fashioned water lift.

Fitted with an electrically welded, air-tight tank, with water gauge, automatic switch controlling special motor—tank and pump base all in one piece—of extreme simplicity and durability.

The Woman's Missionary society of the First Presbyterian church will meet with Mrs. J. T. Arbuckle tomorrow afternoon at her home in East Seventh street. Mrs. Lee Pyle will be the assistant hostess. Mrs. Bennett will read a paper on "Modern World Movements—God's Challenge to the Church." Mrs. Pierson will give the Devotional—Delilah and the Curvet Topics will be given by Mrs. Taylor. This is the last meeting for the year. January 15 is the date set for the next meeting at which time Mrs. Lon Link will be the hostess.

Miss Gladys L. Hill, daughter of Mr. and Mrs. John O. Hill, and William English, son of Mr. and Mrs. John L. English, were quietly married yesterday afternoon at the Methodist parsonage with the Rev. C. S. Black performing the ceremony. The attendants at the wedding were Miss Florence Lower and Denzel Mull. Mr. English and his bride will make their home with the parents of the bride-groom on a farm in the county.

The meeting of the Ladies Aid society of the Christian church which was to have been held tomorrow in the church parlors has been postponed until Tuesday of next week. The change was made on account of the weather and coal situation.

Mr. and Mrs. E. H. Hackleman entertained at their home in Falmouth yesterday with an elegant course dinner yesterday. The guests were the Rev. G. F. Power, Miss Mariah Fry and D. C. Allen of Jeffersonville.

The Monday Study Circle of Milroy had an all day meeting today with Mrs. Claud Crane. At noon the guests enjoyed a pitch-in dinner and the ladies sewed for the Red Cross.

Social Calendar

Tuesday

Woman's Foreign Missionary society of the Methodist church with Mrs. R. P. McClanahan, 122 West Fifth street, in the afternoon.

O. N. T. club with Mrs. Anna Churchill, at the home of Mrs. L. L. Allen, 222 West Fifth street, in the afternoon.

500 club with Mrs. Fred Cochran, 314 West Fourth street, in the evening.

Sorosis club with Mrs. J. T. Paxton, 333 West Seventh street, in the afternoon.

Minnehaha club with Mrs. Walter Smith, 815 North Sexton street, in the afternoon.

Woman's Missionary society of the First Presbyterian church with Mrs. J. T. Arbuckle, 114 East Seventh street, assisted by Mrs. Lee Pyle.

Mr. and Mrs. G. V. Conaway entertained yesterday at noon when the guests were Mr. and Mrs. Austin Frazee and Dr. and Mrs. D. H. Dean and family.

The S. E. T. Club which was to have met with Mrs. Vern Norris tomorrow has been postponed indefinitely. Further announcement will be made later.

The Shakespeare Club meets this evening at the home of the Misses Jessie and Pearl Kitchen in West Third street.

PLANS BEING MADE FOR TRIP TO CAMP SHELBY

Shelbyville Man Wants 42 Required to Get Special Car for a Christmas Visit

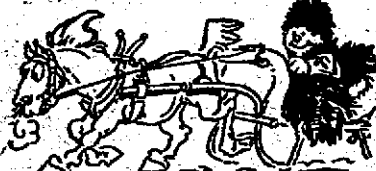

TO BE OF 5 DAYS DURATION

The Southern Railway in arranging to haul a special car of people from this part of the state to Camp Shelby, Miss., to spend Christmas if forty or forty-two persons make arrangements to go. The price for the round trip will be \$42.50, including sleeper accommodations from Cincinnati. The sleeper will be left at Hattiesburg and may be used by the visitors, which will save hotel bills, conveniences of heat and water being provided on the car. Those who wish to go should communicate with George K. Smith of Shelbyville.

The traveling program provides for a five days' trip with a stay of two days, December 24 and 25, in Hattiesburg and at Camp Shelby (the railroad fare from the town to the camp is ten cents), and a stop of one day at Chattanooga on the way home. The train will leave here December 22 and return December 27.

News dispatches announce that relatives and friends of the soldiers at Camp Shelby are given an invitation to visit them at Christmas time, and no better time might be chosen to pay a visit to the camp.

Early Shoppers Get First Choice

Why not smoke the BEST? You can buy it at HUMES - BUELL

Days Pickings

Fred H. Finlaw filed suit in circuit court today against Charles Murphy on an account, demanding \$125.

Charles Naden was fined \$1 and costs in police court this morning for intoxication and the fine was stayed.

Two patients who have had diphtheria have been released from quarantine having received reports on a negative culture. They are Mable Hankins and Martin Joyce.

The Standard Oil company, filed suit in circuit court today against Walter C. Rheinheimer, doing business under the firm name of the Ohio Construction Co., for \$250 on an account.

The Band of Workers of the First Presbyterian church will meet on Wednesday afternoon at the home of Mrs. Lon Link in North Perkins street. Mrs. Link will be assisted in entertaining by Mrs. J. R. Hinkle and Mrs. Maud Wolcott.

Amusements

Madge Evans will appear in "The Little Duchess," at the Princess theatre tonight. She is known as the most charming little actress in pictures. Tomorrow this theater will show the first of a number of Paramount Artercraft pictures, "The Little Miss Optimist," in which Miss Vivian Martin and Tom Moore are starred. It is a dandy comedy-drama. Clara Kimball Young will be seen in "Magda" Friday.

"The Brat," a comedy by Maude Fulton, comes to the Murat in Indianapolis tonight to remain throughout the week. Its plot has to do with the quest of a cynical, sophisticated novelist for a character type which he calls a "brat." Finally he discovers what he is seeking in the person of a small scrap of humanity, a girl, caught up in the police net and hauled into court for a first offense of which incidentally, she is

home where she remains for six weeks. At the end of that time, having finished with her, the writer is quite willing to cast her forth again. In the meantime, however, the young women has been the means of saving the young son of the household, who is fast falling into a life of idleness and drunkenness and is a factor, as a human element, not so easily disposed of. Finally circumstances are readjusted to the satisfaction of all concerned and the conclusion does not fail to bring happiness to the "brat" as well.

Miss Fulton not only wrote the play—which enjoyed a season's run in New York—but also appears in the title role. In her support will be seen Edmund Lowe, Percival T. Moore, Gertrude Maitland, Helen Stewart, Ruth Hold Bonicault, John Findlay and others. The engagement includes matinee performances

Wednesday and Saturday afternoons. Hargrove and Mullin are local agents.

MASCONIC MEETING

There will be a Stated Meeting of Phoenix Lodge No. 62 F. & A. M., Tuesday evening 7:30 p. m. The annual Election of Officers will take place. A large attendance is desired.

Nothing could please the recipient more than a beautiful set of furs. Annis Furs, for which this store is the exclusive agent, are better than lots of furs—their label is at once a guarantee to you and a mark of unusual merit. Our showing comprises fox, lynx, wolf, opossum, roccoon, skunk, squirrel, and coney. Select the scarf, muff or set you wish and we shall reserve them for you till later.

THE GIFT COUNTER

is fairly ablaze with 1917's newest offerings in novelties contrived from silver, mahogany, glass, brass, nickel and leather. The handsome pieces of Sheffield silver are especially noteworthy. We suggest a mahogany chest of Community silver — only \$10.00

STATE BAKERS TO PROCURE LICENSE

Regulations Started by Federal Food Director Today—Subject to Food Administration

SPECIFIC WEIGHTS ARE SET

Sugars and Fats Can Not be Added to Dough During the Process of Baking

(By United Press.)

Indianapolis, Ind., Dec. 10.—Regulation of Indiana bakers by H. E. Barnard, federal food director for Indiana, began today. Every baker using ten barrels or more of flour a month will be subject to the food administration. The county food administrators have been instructed to see that every baker in their territory has procured a license.

The shops which went under federal control were urged to do all possible to conserve wheat by eliminating waste, re-sales, buying, or selling for price manipulation, fixing weights after baking, and by limiting ingredients, encouraging sales direct from wholesalers, consumers, and less frequent deliveries. Other orders to bakers were issued as follows:

"The baker shall manufacture bread and offer it for sale only in the following specified weights, or multiples thereof which shall be net weights unwrapped twelve hours after baking: 16-ounce units (not to run over 17 ounces), 24 ounce units (not to run over 25 1/2 ounces).

"The baker shall manufacture rolls and offer them for sale only in units weighing from 1 to 3 ounces, but no rolls shall be manufactured or offered for sale which shall weigh unwrapped 12 hours after baking, less than 1 ounce or more than 3 ounces.

"The standard weights herein prescribed shall be determined by averaging the weight of not less than 25 loaves of bread of any one unit, or five dozen rolls of any one unit, and such average shall not be less than minimum nor more than the maximum prescribed by these rules and regulations for such units.

LOOK FOR SUPREME EFFORT

Allies Prepared For Enemy Drive on The Italian Front

(By United Press.)

With the French Army in Italy, Dec. 8.—French troops are in action against the ever increasing masses of the Austro-Germans. Preparation has been made for the German's supreme efforts to break through the Italian lines. The Italian front is becoming heavier with masses of men, guns and material. Heavy artillery is now being brought to the fighting lines in large numbers.

REVOLT IN PORTUGAL

(By United Press.)

London, Dec. 10.—A revolution has broken out in Portugal, official advices state. Pillaging and rioting are reported from Old Porto. The revolution is centered in Lisbon.

IS THIS YOUR EXPERIENCE?

Many Rushville People Are Afflicted With Annoying Kidney Ills

Are you bothered with too frequent action of the kidneys? Are the secretions highly colored—do they contain sediment—burn and scald in voiding? These are all signs of kidney sickness and should not be neglected. Rushville people recommend Doan's Kidney Pills. If your back aches and your kidneys are weak you will find no better recommended remedy.

Taylor M. Loyd, 940 W. Third St., Rushville, says: "My back ached steadily and at times was so weak I could hardly get about. The kidney secretions were first too frequent in passage; then again didn't pass often enough. I used about four boxes of Doan's Kidney Pills which I got at Pinner & Wilson's Drug Store and they did just as recommended, relieving me in a short time."

"Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Loyd had. Foster-McMillan Co., Buffalo, N. Y."

ANTI-SALOON BODY PLANS BIG DRIVE

Senate Approved Dry Amendment At Last Session and House Is Expected to Support Measure

REVERSES ARE MET IN IOWA

Winning of Ohio and A Few Other Industrial States Is Essential to Prohibition Strategy

Washington, Dec. 8.—Reports of its most successful year and plans for its biggest effort—the drive for national prohibition at the present session of Congress—are before the convention of the National Anti-Saloon league, which met here today.

In its three sessions, announcements are expected of a number of congressmen pledged to support the dry amendment when it comes to a vote. Careful canvasses have made this known, league leaders say, within a very few votes.

Success for the resolution which will submit the question to the several states is assured, according to these officials, by an overwhelming vote. Only the House remains to be won, the Senates having approved the measure last session.

Prominent among the nationally known men who will address the 2,000 delegates are Senators Sheppard, Tex. and Borah, Ida.; and Reps. Barkley, Ky.; Webb, N. C.; Fess, O., and William Jennings Bryan.

There will be jubilation over the capture of these states since the last convention, in July, 1916: Michigan, Montana, Indiana, New Hampshire, North Dakota, Nebraska and New Mexico. The District of Columbia also was voted dry by Congress.

Reverses were met in Iowa, where the voters rejected a dry constitutional amendment, although the dry statute remains in effect; and in Ohio, by so close a vote that a contest is expected.

Winning of Ohio and one or two more eastern industrial states is regarded as essential to prohibition strategy. Even if congress submits the dry resolution, it will be—unless its present form is amended—in such shape that it must be approved by three-fourths of all the states within six years.

Any 13 of the states could necessitate making the fight all over again.

FATHER OF CHIEF OF POLICE EXPIRES

John H. Yakey, Age 77, Dies at Goshen, Ohio, Sunday of Heart Trouble and Dropsy.

VETERAN OF THE CIVIL WAR

Chief of Police A. L. Yakey received word Sunday of the death of his father, John H. Yakey, at his home in Goshen, Ohio. His death was due to organic heart disease and dropsy. Mr. Yakey had been ill for some time, word having come to the chief of police from time to time in the last month that his father was failing, but death was not expected. Mr. Yakey went to Goshen today to attend the funeral.

In his youth, Mr. Yakey lived in Indiana and enlisted in the 39th Indiana volunteer infantry regiment at the outbreak of the civil war and was later transferred to the 8th cavalry. He was seventy-seven years of age and retired from business several years ago. Mr. Yakey was a member of the Odd Fellows lodge, the G. A. R. and the Methodist church.

He is survived by the widow, a son and daughter by his second wife, and A. L. Yakey of this city, whose mother was his first wife. He is also survived by a sister living in Chicago.

Detroit Weatherproof Detachable Tops

They are designed to afford motoring comfort in Winter as well as Fall and Summer.

They transform your Ford in a few brief seconds to a warm—absolutely storm-tight from windshield to rear window—brilliantly lighted limousine.

For the Ford driver who has considered winter driving a hardship rather than a pleasure, this patented all-weather top will be most acceptable as it eliminates instantly all his former hardships.

No bothersome side curtains to adjust in the biting cold or blinding snowstorms. The weatherproof top becomes an integral part of your Ford at a very reasonable cost.

20,000 SEALS PUT IN THE MAIL TODAY

Enclosed With Each 100 Is Self Addressed Envelope So One Receiving Them May Return \$1

FOLLOWED SEVERAL YEARS

This Plan Results in Large Sale of Christmas Stickers—on Sale in Many Places

Two hundred letters enclosing 100 Red Cross Christmas seals, a stamped addressed envelope and a letter describing the need and purpose of the seals were mailed this afternoon and will be received tomorrow morning by a number of the business men of the city. In the letters, the men are requested to return a check for one dollar, paying for the seals. This method has been repeated for several years by those in charge of the seal campaign because many persons prefer to buy their seals in this manner.

With this plan, the campaign for the sale of seals has been started in earnest. Anyone wishing to purchase the little stickers may do so at any drug store. The seals are also on sale at the Red Cross headquarters. Over the county, the campaign is being managed by the members of the auxiliaries of the Red Cross society. Within a few days, there will be a stand daily at the postoffice when persons will be urged to purchase the seals.

Many persons are using Red Cross seals exclusively in sealing up Christmas packages. The plan is a good one and a gift sealed with these little stickers carries the true idea of the Christmas spirit. The drive is being made with more vigor than ever this year over the entire country because of the need of the fight against tuberculosis in the armies. With this in view, the local girls who have the campaign in charge are planning various ways to push the sale and advertise the need of patronage.

AMERICA RAISES IMMENSE CROPS

Demand For Food Inspired Farmers to Raise Greatest Crops of Grain in History

PEOPLE DO NOT REALIZE IT

Practically Every Necessary Food is Produced in Large Quantities—Small Import

(By United Press.) Indianapolis, Ind., Dec. 10.—"The American people do not realize what astounding crops this country is producing," said H. E. Barnard, state food administrator today. He said:

"The demand for food, more food, that has spurred our farmers to produce the greatest crops of grain we have ever harvested, is inspired by the world shortage of the one thing, that even in war times, when we think in terms of armies and munitions, we must have. We do not know as we should that we produce in the United States nearly 2,000,000,000 pounds of butter annually, and that we import less than 1,000,000,000 pounds. We produce 25,000,000 pounds of meats in one year, and import less than one-half of one per cent of that amount. The central powers have had to legislate meat out of use on certain days of the week. An egg in Germany today is a rare delicacy. Here we have a domestic supply of 2,000,000,000 dozens of eggs a year, or 20 dozen eggs for each man, woman and child in the country. This means about four and a half eggs per person each week.

"Our cows supply us with about 7,500,000,000 gallons of milk a year, from which we take a part to manufacture more than 300,000,000 pounds of cheese, or ten times the amount we import. When we hear of a shortage in the potato crop of the central empires, it is well to remember that we grow about 450,000,000 bushels within our own borders, and import but little more than 200,000. Of corn, wheat and rice we produce a total of 4,000,000,000 bushels, compared to an import of 5,000,000 bushels of corn, chiefly from Argentina; 6,000,000 bushels of wheat chiefly from Canada and 2,500,000 pounds of rice largely from China, England and the Netherlands. To vary our national diet we produce 25,000,000 boxes of oranges, lemons and grape fruit."

TRY TO TRIPLE SALE OF SEALS

To Raise Fund of Three Million Dollars With Red Cross Christmas Stickers

INCREASED NEED WITH WAR

Estimated That Two Per Cent of Drafted Men Infected With Tuberculosis

How many Red Cross Christmas Seals did you buy last year? Will you buy three times as many this year?

Unless every purchaser of Red Cross Seals triples his or her purchase this year, the creation of a \$3,000,000 War Tuberculosis Fund will not be possible.

The American Red Cross and The National Association for the Study and Prevention of Tuberculosis

WOMEN'S MEETING HAD TO BE POSTPONED

Organization for War Work is Held Up Temporarily on Account of Bad Weather

TO BE PERFECTED THIS WEEK

The meeting of the women from each township in the county called for Saturday to organize for war work was postponed on account of the weather. The meeting was called by Mrs. A. L. Stewart and was to have been held in the director's room of the People's National Bank. One woman in each township in the county has been chosen to head the women of her township in war activities under the direction of the County Council of Defense. All organizations working for war relief will work indirectly under the Council in order that the work may be divided.

The purpose of the meeting for Saturday was to appoint committees to head each of the war activities to be undertaken by women in the county. An endeavor will be made to complete the organization and appointment of committees before the state meeting of the Council of Defense is held in Indianapolis Thursday and Friday, when a number of representatives from local organizations will attend.

loss are incurred in the drive for the creation of this fund because America's entry into the war has revealed thousands of hitherto unsuspected cases of tuberculosis that must be cared for, and because every precaution must be taken to

safeguard our troops against the great white plague. Last year \$1,050,000 was made for the anti-tuberculosis campaign by the sale of Red Cross Seals. This means that 105,000,000 holiday tokens were sold. To raise the war

fund of \$3,000,000 it will be necessary to sell 300,000,000 seals this year, and every man, woman and child will have to help to do this by trebling last year's purchases. The buying of Red Cross Christmas Seals is not a humanitarian act.

30° Below Zero by Night

Would no doubt cause a great amount of suffering. These cold winter days and nights call for heavier clothing. Perhaps your last season's overcoat or heavy suit is a little shabby in appearance; maybe it needs a new lining or has a few soiled places. Bring your garments to us.

HAVE US DRY CLEAN, PRESS AND REPAIR THEM. Double your service on all your garments by giving them the proper attention. Our methods will insure long wear.

With Xmas only a few days off, it would be advisable to place your dry cleaning and pressing order for this occasion as soon as possible. Give your clothes a newish appearance.
